STEEL

INDEX

VOLUME 94

Jan. 1 to June 30, 1934

THE PENTON PUBLISHING CO
Cleveland

✓670.5 v.94

A

Abrasives:
Endless abrasive polishing sleeves described, 1/29, p.39.

Acme Mfg. Co.:
Polishing, buffing unit designed by, 6/18, p.63.

Acme Steel Co.:
Box-strapping tool designed by, 1/22, p.36.
Financial report of, for 1933, 1/22, p.11.

Air Conditioning:
New type domestic device described, 3/19, p.34.
Ryerson St. Louis warehouse conditioned for steel, 6/11, p.25.

Air Reduction Sales Co.:
Portable testing machine designed by, 6/4, p.50.

Air Separator:
Description of, 2/26, p.40.

Airpainting Machine:
Description of, 5/14, p.53.

Ajax Electric Co.:
High speed steel from coreless induction furnace, 5/28, p.45; 6/25, p.41.

Alexander Bros.:
General utility belt designed by, 3/12, p.45.

Allegheny Steel Co.:
Financial report of, for 1933, 2/19, p.12; 2/26, p.12; for first quarter, 1934, 5/7, p.14.

Allis Co., Louis:
Capacitor motors designed by, 2/26, p.40.
Direct-current, fan-cooled, explosion-proof motor designed by, 4/2, p.51.
Flanged head motors designed by, 5/14, p.53.

Allis-Chalmers Mfg. Co.:
Financial report of, for 1933, 2/12, p.13; for first quarter, 1934, 4/30, p.16.

Alloy Iron:
Automobile body dies cast from, 3/26, p.30.

Alloy Steel:
Characteristics of, common with carbon steels, 5/28, p.25.
Distribution of, in 1933, 1/1, p.99.
Molds spun after pouring castings of, 6/11, p.54.
Review of, for 1933, 1/1, p.99.
Use of, in heating furnace skids, 6/18, p.57.
Value in transportation recognized, 1/8, p.23.

Alloys:
Value in transportation recognized, 1/8, p.23.

Alphabet:
Government by, 1/22, p.15; 1/29, p.14.

Aluminum:
New form for alloying offered, 2/12, p.32.

Aluminum Industries Inc.:
Aluminum paint to spread more easily perfected by, 4/2, p.41.

Amalgamated Association of Iron, Steel and Tin Workers:
Proposed steel strike postponed by, 6/18, p.14.
See also Steel Strike, Labor.

American Brass Co.:
Corrosion resistant electric conduit designed by, 4/2, p.24.

American Ceramic Society:
Meeting in 1935 to be at Buffalo, Feb. 17, 5/21, p.12.

American Chain Co. Inc.:
Chain hoist designed by, 4/2, p.51.

American District Steam Co.:
Expansion joint designed by, 4/23, p.47.

American Electro-Platers Society:
Program of June meeting of, 4/23, p.34.

American Gear Manufacturers Association:
Program for May meeting of, announced, 4/23, p.36.
Report of annual meeting of, 5/7, p.17; 5/14, p.50.

American Heat Economy Bureau Inc.:
Draft control regulator designed by, 6/11, p.57.

American Institute of Mining and Metallurgical Engineers:
Report of 143rd meeting of, 2/26, p.37; 3/5, p.28; 4/16, p.37.

American Institute of Steel Construction:
Address by V. G. Iden, of, 2/12, p.16.
Awards made for most beautiful bridges, 6/18, p.17.
Report on crossing elimination issued by, 1/29, p.16.
Research in windbracing design by, 6/25, p.51.
Selection of three most beautiful bridges for 1933 by, 6/11, p.19.
Steel frame essential in modern home, 3/5, p.32.
Tests of battledeck floor by, gives data on beam spacing, 6/11, p.38.

American Iron and Steel Institute:
Activities of, in support of steel code, 2/12, p.10.
Appointments made to complete authority, 1/15, p.11.
Board of directors of, enlarged, 5/14, p.11.
Commercial resolutions A1 to A28 issued, replacing former regulations, 6/25, p.73.
Commercial resolutions of: Announced, Nos. 42, 43, 44, 1/22, p.12; Nos. 10, 11, 16, 29, 45, 46, 47, 2/12, p.12; No. 48, 2/26, p.11; Nos. 50 to 54, 3/26, p.11; Nos. 55 to 58; No. 59, 5/21, p.11; amended, No. 8, 4/2, p.13; Nos. 25 and 46, 4/23, p.11; No. 44, 5/21, p.10; No. 46, 6/4, p.12.
Committee named by, to consider code changes, 4/30, p.10.
Employment in steel industry reported by, November, 1/15, p.12; February, 4/9, p.12; March, 5/7, p.14.
Federal trade commission report is criticised by, 3/26, p.18.
Frank R. Frost and E. L. Parker added to directorate of, 5/28, p.12.
Iron and steel prices filed with, 1/28, p.11; second quarter, 3/5, p.12; further filings, 3/12, p.15; 3/19, p.12; 4/9, p.12; 4/30, p.67; 5/7, p.81; 5/14, p.72; 5/21, p.73; 5/28, p.77; 6/4, p.72.
Motor truck discrimination hearing set, 1/8, p.11; 1/22, p.12.
Opposition to Wagner bill set forth in statement by, 3/19, p.13.
Program for spring meeting of, announced, 5/7, p.13.
Report of forty-third general meeting of, 5/28, p.10.
Revised Wagner bill opposed by, 6/4, p.11.
Revision of steel code taken up by, 5/7, p.12.
Speakers for spring meeting of, 5/21, p.19.
Statistics of steel production by members of steel code issued by, 6/18, p.27.
Two new directors named by, 6/18, p.20.
Unofficial prices suggested for second quarter, 2/19, p.10.
Walter Tower broadcasts on steel code, 5/14, p.11.

American Leather Belting Association:
Book on power transmission published by, 6/11, p.60.

American Metallic Packing Co.:
Packing ring designed by, 3/19, p.56.

American Nickeloid Co.:
Chrome and nickel plated steel produced by, 3/5, p.26.
Chromium bonded sheets in fluted design offered by, 4/23, p.27.

American Oil Burner Association:
Eleventh annual convention of, 3/19, p.11.

American Oxycop Co.:
Gas cutting machine designed by, 2/5, p.48.

American Refractories Institute:
Tests by, reveal permeability of refractories, 6/4, p.26.

American Rolling Mill Co.:
Directors re-elected by, 5/21, p.11.
Financial report of, for 1933, 3/26, p.12.
Improvements at Belfont plant planned by, 2/26, p.10.
Will rehabilitate and reopen Belfont nail mill, 1/22, p.11.

American Society for Metals:
Annual meeting of nonferrous section, 4/16, p.32.
Metal coatings discussed by Detroit chapter of, 5/21, p.30.
New name adopted by American Society for Steel Treating, 1/15, p.29.
Officers nominated by, 6/4, p.72.
Pennsylvania interchapter meeting of, at State College, Pa., 5/14, p.43.
Pennsylvania interchapter meeting of, considers cooling rate, 5/21, p.42.
Report of grain-size meeting of, 4/30, p.44.

American Society for Steel Treating:
Adopts name of American Society for Metals, 1/15, p.29.

American Society for Testing Materials:
Officers nominated for, 5/28, p.52.
Program for annual meeting of, 5/28, p.52.
Report of impact testing of cast iron by, 4/2, p.36.
Report of spring regional meeting of, 3/12, p.44.
Revision of material standards reported by, 3/19, p.44.
Study of metals at high temperatures by, 1/22, p.28.

American Steel & Wire Co.:
New soaking pit equipment being installed by, 3/12, p. 15; 4/23, p.45.

American Steel Foundries:
Financial report of, for 1933, 2/12, p.13.

American Supply and Machinery Manufacturers' association:
Report of meeting of, 5/28, p.16.

American Tube & Stamping Co.:
Photocell makes descaling of steel automatic, 6/18, p.57.

Ammeter:
Description of, 4/16, p.55.

Anderson, Paul N.:
Biographical sketch of, 6/25, p.17.

Angle Bars:
Prices of, 1914-1933, by months, 1/1, p.155.

Annealing Machine:
Portable, described, 1/22, p.36.

Anniversary:
First basic pig iron made 50 years ago, 5/14, p.12.
First ore shipments from Gogebic and Vermillion ranges 50 years ago, 5/14, p.12.
Hot blast for blast furnaces applied 100 years ago, 5/14, p.12.

Apollo Metal Works:
Light-gage metal display material on plywood designed by, 4/23, p.29.
Satin chrome finish on copper sheets produced by, 6/25, p.31.

Apollo Steel Co.:
Financial report of, for 1933, 2/12, p.13.

Arc Arrester:
Description of, 2/12, p.38.

Arc Welding:
See Welding.

Arc Welding Head:
Automatic, described, 6/11, p.59.

Armite Laboratories:
Metallic lead lubricant designed by, 2/19, p.28.

Armstrong Bros. Tool Co.:
Star drill line designed by, 3/5, p.45.

Armstrong Cork & Insulation Co.:
Super-refractory insulation alters furnace design, 6/4, p.43.

Artos Engineering Co.:
Drilling machine designed by, 2/5, p.48.

Association of Iron and Steel Electrical Engineers:
Annual meeting of, set for Cleveland, 1/8, p.45.
Program for, announced, 4/2, p.28.
Report of meeting of, 1/15, p.24.
Report of spring engineering conference of, 4/16, p.51.

Atlantic Steel Co.:
Financial report of, for 1933, 2/5, p.13; 2/26, p.12.

Atlas Car & Mfg. Co.:
Locomotive for Hawaii built by, 3/19, p.40.

Australia:
Steel plant in, 6/4, p.21.

Automatic Machine Co.:
Profile milling machine designed by, 4/16, p.55.

Automatic Temperature Control Co. Inc.:
Adjustable timing contactor designed by, 1/29, p.38.
Timing contactors designed by, 2/19, p.39.

Automobiles:
Comparison of prices for three years, 2/19, p.18.
Current gossip regarding manufacture of, 1/8, p.15; 1/15, p.14; 1/22, p.15; 1/29, p.15; 2/5, p.19; 2/12, p.15; 2/19, p.17; 2/26, p.15; 3/5, p.17; 3/12, p.19; 3/19, p.17; 3/26, p.14; 4/2, p.17; 4/9, p.18; 4/16, p.16; 4/23, p.16; 4/30, p.18; 5/7, p.18; 5/14, p.17; 5/21, p.13; 5/28, p.18; 6/4, p.15; 6/11, p.20; 6/18, p.19; 6/25, p.15.
Manufacture of, takes fifth of all steel, 1/1, p.96.
Production of, statistics by months, January-February, 4/2, p.79; March-April, 6/4, p.78.
Production of, by months and weeks, in 1934, 6/11, p.20.
Review of automotive industry in 1933, 1/1, p.94.
See also Mirrors of Motordom.

Automobile Seats:
Bent tubing used for, 5/14, p.34.

B

Babbitt Metal:
Production and sales of, by months, January-February, 4/2, p.79; March-April, 6/4, p.78.

Bailey Co., William M.:
Cast steel hook for removing ladle skulls designed by, 5/21, p.44.

Bailey Meter Co.:
Potentiometer pyrometer designed by, 4/2, p.51.
Smoke recorder designed by, 6/18, p.60.

Balancer:
Static, described, 2/19, p.38.

Baltimore & Ohio:
New type trains ordered by, 5/14, p.12.

Bantam Ball Bearing Co.:
Shielded bearings designed by, 4/30, p.47.

Bars:
See Steel Bars.

Bar Iron:
Prices of, 1907, 1933, by months, 1/1, p.154.

Barnes Drill Co.:
Honing machine designed by, 5/28, p.58.

Barrels:
See Steel Barrels.

Basing Point:
Advantages of, set forth, 3/26, p.19.
Federal trade commission says NRA forces violation of its rule on, 3/26, p.17.
Steel institute defends, 2/12, p.10.

Battledeck Floor:
Results of load tests of, 4/16, p.46.
Tests of, give data on beam spacing, 6/11, p.38.

Bearing:
Antifriction, described, 4/2, p.51.
Bronze stock for, described, 5/14, p.53.
Industrial roller, described, 2/12, p.38.
Shielded, described, 4/30, p.47.
Water-lubricated fabric rollneck, described, 4/23, p.45.

Belgium:
Review of business in, for 1933, 1/1, p.171.
See also Imports, Exports, Iron and Steel Production.

Belt:
New type general utility, described, 3/12, p.45.
Book on, published, 6/11, p.60.
Multi-V, described, 6/18, p.63.

Bending Roll:
Wrapping-type, described, 1/29, p.39.

Beryllium:
Tools of beryllium copper non-sparking, 5/21, p.30.

Bessemer Medal:
Award of, to King George V, 4/9, p.12.

Bethlehem Steel Corp.:
Annual stockholders' meeting of, 4/16, p.11.
Financial report of, for fourth quarter and 1933, 1/29, p.10; 2/26, p.12; for first quarter, 1934, 4/30, p.11.
Manufacture of tool steel by, 6/18, p.51.
Production and use of extruded steel forgings, 5/7, p.25.

Billets:
See Steel Billets.

Biographical Sketch:
Anderson, Paul N., 6/25, p.17.
Burns, Robert S., 6/4, p.13.
Chapman, Everett, 4/23, p.17.
Christensen, John, 5/14, p.19.
Claster, Joel, 3/19, p.19.
Detwiler, W. F., 4/9, p.16.
Eavenson, Howard N., 2/26, p.17.
Eckel, Joseph C., 4/16, p.17.
Frost, Frank R., 6/18, p.20.
Fuller, Fred M., 2/12, p.17.
Griffis, R. O., 6/4, p.13.
Hackett, Samuel E., 6/4, p.19.
Hamaker, L. S., 6/18, p.23.
Harrison, Robert E. W., 5/28, p.19.
Hoadley, Franklin R., 2/19, p.19.
Holton, C. R., 1/15, p. 17.
Horton, William H., 2/5, p.20.
Howland, William I., Jr., 1/8, p.17.
Jacobus, Dr. J. S., 6/11, p.24.
Kenyon, Reid L., 6/4, p.13.
Larkin, J. M., 1/15, p.17.
Lloyd, George C., 1/22, p.17.
Lloyd, John, 3/5, p.19.
Lorenz Jr., F. A., 5/7, p.20.
Parker, Edward L., 6/18, p.20.
Rectanus, S. R., 5/21, p.17; obituary, 6/25, p.18.
Rhodes, Charles H., 3/12, p.21.
Sellers, Alexander, 4/30, p.17.
Shick, F. A., 1/15, p.17.
Stage, Ernest G., 3/26, p.21.
Young, Arthur H., 4/2, p.19.

Black & Decker Mfg. Co.:
Electric drill designed by, 5/7, p.57.

Blast Furnaces:
Construction of, in 1933, 1/1, p.103.
Filling equipment for, 3/26, p.48.
Rebuilding of 200-year-old, for exhibition, 5/14, p.49.
Review of progress in, for 1933, 1/1, p.120.

Blast Furnace and Coke Association of Chicago District:
Officers elected by, 6/11, p.21.

Blow Guns:
Drop-forged alloy steel, described, 3/26, p.54.

Blueberry Mine:
Transfer of, by Ford, 1/1, p.106.

Blueprint Machine:
Description of, 5/28, p.58.

Boilers:
Sales of steel, by months, January-February, 4/2, p.79; March-April, 6/4, p.78.

Boiler Tubes:
New prices on, filed with institute, 3/5, p.12.

Book Review:
A.S.T.M. Tentative Standards, 4/16, p.37.
Alloys of Iron and Tungsten, 4/2, p.35.
Carnegie Pocket Companion, 6/11, p.61.
Casting of Brass Ingots, 4/9, p.49.
Deutsch-Englisches Fachworterbuch der Metallurgie, 1/29, p.32.
Economics of Free Deals, 4/2", p.29.
Economics of the Recovery Program, 4/16, p.39.
Fifty Reports on Mechanical Power Transmission From Motor Drives to Industry, 6/11, p.60.
Freight Tariffs of All-Rail Rates on Iron and Steel Products, 3/5, p.30.
Industrial Radiography, 3/12, p.27.
Industrialized Russia, 4/9, p.30.
Lessons in Arc Welding, 4/2, p.48.
Manual of Structural Design, 1/29, p.32.
Manual on Thread Forms, 4/16, p.39.
Mechanical World Year Book, 1934, 4/9, p.34.
Metal Statistics, 5/7, p.40.
Metallurgy of Iron and Steel, 4/2, p.41.
1933 Index to A.S.T.M. Standards and Tentative Standards, 2/5, p.46.
Principles of Metallurgy, 1/29, p.32.
Procedure Handbook for Arc Welding Design and Practice, 3/26, p.35.
Proceedings of American Society for Testing Materials, 4/2, p.28.
Roll Pass Design, 1/29, p.32.
Sampling and Analysis of Pig Iron and Cast Iron, 5/14, p.49.
Steel Makers, 3/12, p.31.
Thermodynamics of Electrical Phenomena in Metals, 4/30, p.28.
Trade Associations and Industrial Control, 4/23, p.34.

Borden Co.:
Wheel pipe cutter designed by, 1/15, p.30.

Boring Bar:
Description of, 5/21, p.54.

Boring Machine:
Horizontal, described, 2/26, p.40.
Production, described, 2/19, p.39.

Botfield Refractories Co.:
Chrome-base cement for refractories introduced by, 5/28, p.36.

Boulder Dam:
Unusually large trailer to handle penstock pipe at, 3/12, p.38.

Brazing Alloy:
Distribution of, by Air Reduction Sales Co., 5/7, p.43.
Low melting point, described, 6/25, p.47.

Bridge:
Awards for most beautiful in 1933, 6/18, p.17.
Contest for most beautiful, 5/21, p.12.
Three most beautiful, in 1933 selected, 6/11, p.19.
Winners in sixth annual contest on bridge design, 5/7, p.13.

British Institute of Metals:
Report of meeting of, 3/26, p.35.

British Insulated Cables Ltd.:
Unusually small insulated wire produced by, 4/30, p.13.

British Iron and Steel Institute:
Report of annual meeting of, 6/18, p.42.

British Mannesmann Tube Co.:
Largest steel tube produced by, claim, 4/30, p.13.

Broaching Machine:
Surface, described, 2/12, p.40.

Brown & Co., R. H.:
Automatic blanking shears designed by, 4/30, p.47.

Brown & Sharpe Mfg. Co.:
Dial gage designed by, 6/4, p.50.

Brown Instrument Co.:
Electric meter body designed by, 5/14, p.53.
Indicating controller designed by, 5/28, p.57.

Bruning Co. Inc., Charles:
Electric erasing machine designed by, 2/19, p.39.

Buckeye Portable Tool Co.:
Nut runner designed by, 4/9, p.51.
Sanding and polishing tools designed by, 3/12, p.46.

Budd Mfg. Co., Edward G.:
Burlington streamline train manufactured by, 4/23, p.10.
Financial report of, for first quarter, 4/30, p.16.
High-speed railway cars built by, pioneer fields for stainless steels, 4/9, p.23.
Research in streamlined trains undertaken, 6/18, p.17.
Stainless steel dome for planetarium to be built by, 6/4, p.13.
Stainless steel streamlined train for Burlington built by, 5/7, p.13, 30.
Strike at plant of, settled, 4/9, p.12.

Buffalo Electric Furnace Corp.:
Production of stainless steel by electric furnace by, 6/4, p.16.

Bullard Co.:
Speed shift and flexible feed designed by, 3/5, p.27.
Vertical turret lathe designed by, 2/5, p.48.

Burial Vaults:
Welded, immune to water and rust, 3/26, p.25.

Burlington Zephyr:
Streamline train of Burlington railroad, put on trial, 4/23, p.10; 5/7, p.13, 30.

Burns, Robert S.:
Biographical sketch, 6/4, p.13.

Business:
Fifty years of, in greater Pittsburgh area, 1/29, p.12.
Signs of recovery in, are plain, 1/29, p.16.

Business Trend:
1/1, p.111; 1/8, p.19; 1/15, p.18; 1/22, p.21; 1/29, p.22; 2/5, p.23; 2/12, p.21; 2/19, p.21; 2/26, p.20; 3/5, p.21; 3/12, p.23; 3/19, p.21; 3/26, p.24; 4/2, p.21; 4/9, p.21; 4/16, p.23; 4/23, p.21; 4/30, p.22; 5/7, p.23; 5/14, p.23; 5/21, p.21; 5/28, p.24; 6/4, p.23; 6/11, p.26; 6/18, p.29; 6/25, p.25.

Byers Co., A. M.:
Financial report of, for fourth quarter, 1/29, p.10; for 1933, 1/22, p.11; for first quarter, 1934, 4/30, p.16.

C

Cable:
Rubber-insulated, described, 4/16, p.55.

Cadmium:
How effective is coating of, 4/30, p.23.

Caisson:
Steel used in new method of construction, 2/19, p.26.

Cam Miller:
Attachment for, described, 2/19, p.38.

Canada:
Review of business in, for 1933, 1/1, p.200.
Success of tin plate production in, not so bright, 2/19, p.11.
See also Imports, Exports, Iron and Steel Production.

Canal:
Beaver-Mahoning, approved by army chief, 3/12, p.46.
Corporation planned to build Beaver-Mahoning, 2/12, p.11.

Captive Mines:
Difficulties over labor in, 1/8, p.12; 1/15, p.11; 1/22, p.12; 2/12, p.11; 2/26, p.11; 3/5, p.12.

Car Orders:
See Freight Cars.

Carboloy:
New grades of, announced, 6/18, p.58.

Carboloy Co. Inc.:
Milling cutter designed by, 3/19, p.56.
New grades of carboloy announced by, 6/18, p.58.

Carburizing Boxes:
Thin-walled, advantageous, 3/26, p.28.

Carnegie Steel Co.:
Continuous strip mill at Valley plant planned by, 6/25, p.11.
Metallurgical laboratory built by, 3/21, p.30.

Cast Iron Pipe:
See Pipe.

Castings:
Engineers told of developments in manufacture of, 2/5, p.30.
Molds spun after pouring alloy steel, 6/11, p.54.
New method developed for hardening malleable or gray iron, 2/26, p.23.
Review of, for 1933, 1/1, p.130.
See also Gray Iron, Malleable and Steel.

Caterpillar Tractor Co.:
Financial report of, for 1933, 1/29, p.39.
Industrial locomotive designed by, 1/29, p.10.
New model tractor introduced by, 3/26, p.53.

Central Europe:
Review of business conditions in, for 1933, 1/1, p.173.

Centrifuge:
Use of, to determine rock strength, 3/12, p.44.

Century of Progress:
Ford Motor Co. buildings at, described, 4/2, p.33.
Ford Motor Co. model mill will roll steel sheets at, 5/28, p.14.

Chain:
Roller, of stainless steel, described, 5/14, p.53.

Chain Belt Co.:
Financial report of, for 1933, 3/5, p.12.

Chamfering Machine:
Gear tooth, described, 5/7, p.58.

Champion Machine & Forging Co.:
Pipe coupling designed by, 2/19, p.39.

Chapman, Everett:
Biographical sketch of, 4/23, p.17.

Chatillon & Sons, John:
Improved spring material developed by, 5/14, p.40.

Chicago Fire Brick Co.:
Plastic insulating refractory developed by, 5/7, p.27.

Chicago Flexible Shaft Co.:
Financial report of, for 1933, 2/19, p.12.

Chicago Foundrymen's Club:
Becomes Chicago section of American Foundrymen's association, 6/18, p.85.

Chicago Pneumatic Tool Co.:
External tube-end polisher designed by, 4/9, p.51.

Chicago Railway Equipment Co.:
Financial report of, for 1933, 2/19, p.12.

Chicago Tool & Engineering Co.:
Collet chucks designed by, 2/19, p.38.

Christensen, John:
Biographical sketch of, 5/14, p.19.

Chrome-Molybdenum Steel:
Banding in, 4/9, p.34.

Chrome Plating:
Copper sheets with, decorate Ford building at Century of Progress, 6/25, p.31.

Chromium:
Steel plated with, supplied for fabrication, 3/5, p.26.

Chuck:
Collet, described, 2/19, p.38.

Circuit Breaker:
New 600-ampere, described, 2/26, p.40.

City Machine & Tool Co.:
Tool jig designed by, 6/4, p.53.

Clamps:
Steel, manufacture of, described, 2/12, p.35.

Claster, Joel:
Biographical sketch, 3/19, p.19.

Cleaner:
Blower and suction, described, 5/14, p.53.

Cleereman Machine Tool Co.:
Drilling machines designed by, 2/19, p.38.

Cleveland-Cliffs Iron Co.:
Financial report of, for 1933, 5/14, p.12.

Cleveland Container Co.:
Endless abrasive polishing sleeves designed by, 1/29, p.39.

Cleveland Crane & Engineering Co.:
Motor-driven tramrail carrier designed by, 1/29, p.38.
Tramrail switches devised by, 2/26, p.40.

Cleveland Pneumatic Tool Co.:
Blow guns of drop-forged alloy steel designed by, 3/26, p.54.

Cleveland Profiling Machine Co.:
Profiler and die sinking attachment designed by, 6/18, p.60.

Cleveland Welding Co.:
New automotive wheel designed by, 3/5, p.23.

Climax Molybdenum Co.:
Financial report of, for 1933, 5/14, p.12.

Clothesline:
Pinless, described, 1/29, p.30.

Clutch:
Cushion, described, 4/30, p.47.
Magnetic, described, 1/29, p.38.
One-way, free wheeling, described, 3/19, p.56.

Clutch-Brake:
Description of, 4/16, p.54.

Coal:
Specifications for classification of, approved, 4/16, p.37.

Codes:
See NRA.

Coe Mfg. Co.:
Condensate remover designed by, 3/19, p.56.

Coke:
Prices of beehive, by months, 1/1, p.146.
Prices of by-product foundry, by months, 1/1, p.145.
Production of, in 1933, 6/25, p.72.
Production of, by months, January-February, 4/2, p.79; March-April, 6/4, p.78.

Cold Header:
Description of, 5/7, p.57.

Cold Heading:
Methods of, described, 1/29, p.23.

Colorado Fuel & Iron Co.:
Bond interest of, to be paid, 6/25, p.12.
Financial report of, for 1933, 2/26, p.12; for first quarter, 1934, 5/7, p.14.
New sales officials named by, 1/29, p.17.

Columbia Electric Mfg. Co.:
Ammeters designed by, 4/16, p.55.

Columbian Steel Tank Co.:
Tanks bolted by, before welding, 4/9, p.28.

Columbium:
Intergranular corrosion of 18-8 steel halted by, 3/5, p.27.

Colvilles Ltd.:
Plate business of Stewarts & Lloyds acquired by, 1/22, p.13.

Combustion Engineering Co.:
Chain grate stoker designed by, 4/23, p.47.

Commercial Resolutions:
See American Iron and Steel Institute.

Communism:
Amalgamated members warned against policies of, 6/4, p.11.

Comparator:
Description of, 1/15, p.30.

Composite:
Prices of iron and steel, 1922-1933, by weeks and months, 1/1, p.158.

Compressor:
Diesel, gas engine, described, 2/19, p.39.
Portable air, described, 6/18, p.58.
Vertical, described, 2/5, p.48.

Concrete Reinforcing Steel Institute:
Report of annual meeting of, 3/26, p.12.

Condensate Remover:
Description of, 3/19, p.56.

Condenser:
Heavy-duty, described, 4/9, p.51.

Conduit:
Corrosion resistant, described, 4/2, p.24.
Fittings for flexible, described, 2/19, p.38.

Connolly, John J.:
Scrap and waste material codes administered by, 6/25, p.11.

Consumption:
Tonnages of steel taken by various industries in 1933, 1/1, p.96.

Containers:
Steel consumed in, in 1933, 1/15, p.10.

Continental Asbestos & Refining Co.:
New type wear-resisting flooring designed by, 4/2, p.35.

Continental Can Co.:
Will build Steckel mill, 5/7, p.29.

Continental Steel Corp.:
Financial report of, for last half 1933, 2/5, p.12.

Biographical sketch of, 4/9, p.16.

Diamond Chain & Mfg. Co.:
Stainless steel roller chains designed by, 5/14, p.53.

Dickey-Grabler Co.:
Requirements for contract stamping shown by plant of, 6/11, p.34.

Dies:
Automobile body, cast from alloy iron, 3/26, p.30.
Stationary-type tangent, described, 6/4, p.52.

Die Casting:
Improved die steels give economies in, 2/19, p.23.
Recent developments in, 2/5, p.25.
Review of, for 1933, 1/1, p.131.

Die Head:
Combination, described, 2/5, p.48.

Die-Making Machine:
Description of heavy-duty, 6/25, p.48.

Diesel Engine:
Light weight, described, 6/18, p.58.

Differentials:
Quantity, discussed by Walter S. Tower, 3/12, p.15.

Differential Steel Car Co.:
Arc welded locomotive designed by, 4/23, p.46.

Dings Magnetic Separator Co.:
Magnetic clutch-coupling designed by, 2/12, p.40.

Discounts:
Quantity, discussed by Walter S. Tower, 3/12, p.15.

Distribution:
Of steel in 1933, 1/1, p.96.

Dividends:
See Financial News of Steel Industry.

Dixon Crucible Co., Joseph:
Graphite lubricating device designed by, 6/25, p.48.

Doman-Marks Co.:
Air-cooled engine designed by, 3/19, p.56.

Dominion Bridge Co.:
Financial report of, for fiscal year 1933, 1/29, p.10.
Retarded cooling of steel rails by, described, 4/2, p.44.

Dominion Steel Corp.:
Export sales increase to above 1929 level, 4/30, p.12.

Door Operator:
Description of, 1/22, p.36.

Dragline Bucket:
Description of, 2/26, p.40.

Dreis & Krump Mfg. Co.:
Power shear designed by, 3/19, p.56.

Drill:
Electric, described, 5/7, p.57.
Portable electric, described, 4/30, p.47.
Speeder unit for, described, 2/5, p.49.
Star, described, 3/5, p.45.

Drilling Machine:
Description of, 2/5, p.48.
Description of, 4/5, p.45.
Heavy-duty, described, 2/19, p.39.

Dry Ice:
Use of, to shrink valve seat inserts, 3/19, p.40.

Dumore Co.:
Hand grinder designed by, 4/16, p.54.

Dumping:
Pig iron from Canada being investigated, 2/12, p.10.
Woven wire fencing and netting order issued, 1/22, p.11.

Durable Goods:

Description of, 4/23, p.47.

Exports:
Of Belgium for 1933, by months, 1/1, p.171.
Of France for 1933, by months, 1/1, p.169.
Of Germany for 1933, by months, 1/1, p.166.
Of Great Britain for 1933, by months, 1/1, p.163.
Of United States, statistics by months; November, 1/8, p.12; December, 2/5, p.16; January, 3/5, p.13; 3/12, p.18; February, 4/9, p.52; March, 4/30, p.14; April, 6/4, p.14; 6/11, p.62.
Of world, for 1933, 1/1, p.118.
Opportunities for machinery in, 6/11, p.60.

Extras:
Quantity, attacked by Senator Shipstead, 5/14, p.11.

F

Fabrication-in-transit:
Decision reached on, 1/15, p.12.
Discussion of, deferred, 1/8, p.11.
Move to include steel sheets in, 2/19, p.11.
Railroads to investigate, 2/12, p.11.
Revision of, on steel products considered, 6/11, p.19.

Fafnir Bearing Co.:
Industrial roller bearings designed by, 2/12, p.38.

Fairbanks-Morse & Co.:
Diesel engine designed by, 6/18, p.58.
Financial report of, for 1933, 4/16, p.12.

Falk Corp.:
Motorized speed reducers designed by, 2/19, p.39.

Fans:
Manufacture of ventilating, described, 5/7, p.46.

Fate-Root-Heath Co.:
Diesel locomotive designed by, 2/5, p.48.

Federal Machine & Welder Co.:
High-speed, overhung rim welder designed by, 6/4, p.38.

Federal Trade Commission:
Report of, on steel code, under fire, 4/2, p.11.
Report of, on steel industry, 3/26, p.17.
Steel prices and basing points to be probed by, 2/5, p.15.

Ferner Co., R. Y.:
Jig borer introduced by, 3/26, p.53.
Profile projector designed by, 2/19, p.38.

Ferromanganese:
Prices of, 1914-1933, by months, 1/1, p.140.

Ferrosilicon:
Prices of, 1916-1933, by months, 1/1, p.139.

Filter:
Air, described, 2/12, p.38.
Oxygen regulator, described, 6/18, p.58.

Finances:
Analysis of, of 25 leading steel producers for 1933, 4/23, p.22.

Financial News of Steel Industry
1/8, p.12; 1/22, p.11; 1/29, p.10; 2/5, p.12; 2/12, p.12; 2/19, p.12; 2/26, p.12; 3/5, p.12; 3/19, p.14; 3/26, p.12; 4/2, p.72; 4/16, p.11; 4/23, p.22; 4/30, p.10; 5/7, p.14; 5/14, p.12; 5/21, p.11; 5/28, p.14; 6/4, p.14; 6/25, p.12.
See also Earnings.

Fire Extinguisher:
Machine gun type described, 6/25, p.47.

Flat-Rolled Steel:
See Steel Sheets.

Flooring:
New type of, described, 4/2, p.35.

Fluid Regulator:
Description of, 5/28, p.58.

Follansbee Bros. Co.:
Financial report of, for 1933, 3/26, p.12.
Placed in receiver's hands, 5/14, p.12; 5/21, p.11.
Reorganization under revised bankruptcy act undertaken by, 6/25, p.12.

Foote-Burt Co.:
Surface broaching machine designed by, 2/12, p.40.

Ford Motor Co.:
Added steel capacity announced by, 3/5, p.11.
Buildings of, at Century of Progress described, 4/2, p.33; 6/25, p.31.
Financial report of, indicates smaller loss in 1933, 6/3, p.15.
Making of cast alloy crankshafts by, described, 3/19, p.25.
Many types furnaces in forging plant of, 4/23, p.25.
Model mill will roll strip sheets at Century of Progress, 5/28, p.15; 5/21, p.12.
Rolling mills to be added to steel plant of, 2/26, p.10; 15.

Foreign Trade:
See Exports, Imports.

Forging:
Many types furnaces used by Ford Motor Co. in, 4/23, p.25.
Review of progress in, for 1933, 1/1, p.123.

Forgings:
Use and production of extruded, 5/7, p.25.

Foster Wheeler Corp.:
Stainless steel fractionating tower fabricated by welding by, 4/23, p.31.

Fostoria Pressed Steel Corp.:
Financial report of, for 1933, 1/29, p.10.

Foundry:
Review of, industry, for 1933, 1/1, p.130.
Short course in, at Detroit, 4/30, p.29.

Foundry Equipment:
Index of orders by months, January-February, 4/2, p.79; March-April, 6/4, p.78.

Fox, Cyril A.:
Track grinder designed by, 1/29, p.38.

Foxboro Co.:
Indicating pyrometer designed by, 2/5, p.48.
Pyrometer, recording potentiometer, designed by, 2/26, p.40.
Temperature, pressure controller designed by, 6/11, p.57.

France:
Review of business in, for 1933, 1/1, p.169.
See also Imports, Exports, Iron and Steel Production.

Freight Cars:
Awards of, statistics by months; December, 1/8, p.38; January, 2/26, p.48; February, 3/12, p.54; March, 4/9, p.63; April, 5/7, p.70; May, 6/4, p.62.
Comparisons of buying of, by years, 4/2, p.72.
Construction of, increases steel demand, 5/7, p.45.
Government ownership would make, more flexible, 1/29, p.11.

Freight Rates:
Increase on coal, in Ohio postponed, 2/12, p.11.
Protest against river-rail coal rates, 2/5, p.13.
Revision of, on steel tanks is asked, 3/26, p.12.

French Oil Mill Machinery Co.:
Plastic molding press designed by, 6/4, p.53.

Freyn Engineering Co.:
Backwashing strainer designed by, 4/16, p.40.
Multizone gas washer designed by, 4/2, p.44.
New form of blast furnace tuyere designed by, 3/12, p.31.

Frost, Frank R.:
Biographical sketch of, 6/18, p.20.

Frost Steel & Wire Co.:
Inventories of Ojibway and Hamilton, Ont., steel plants taken over by, 5/7, p.13.

Fuel Unit:
Automatic, for atomizing oil burners described, 6/25, p.50.

Fuller, Fred M.:
Biographical sketch of, 2/12, p.17.

Furnace:
Annealing, described, 2/12, p.38.
Automatic gas analysis system for open-hearth, 2/26, p.25.
Construction of open-hearth in 1933, 1/1, p.103.
Electric, reduces time of malleablizing, 6/4, p.44.
Gas bench, described, 2/5, p.49.
Many types forging, used by Ford Motor Co., 4/23, p.25.
Metallic wound electric, described, 6/18, p.60.
Production of high-speed steel in coreless induction, 5/28, p.45; 6/25, p.41.
Rocking electric, described, 3/5, p.44.
Small electric, described, 1/29, p.38.
Special, for heating nut and bolt stock, 2/26, p.21.
Super-refractory insulation alters design of, 6/4, p.43.
See also Open Hearth, Blast Furnace.

Furniture:
See Steel Furniture.

Fuse:
Superlag, described, 3/19, p.56.

G

Gage:
Dial, described, 6/4, p.50.
Electronic, described, 5/28, p.57.
Exhibit of, in New York, 2/5, p.40.
New line of, described, 5/28, p.57.
Plug and ring thread, described, 1/29, p.39.

Galvanizing:
Effect of welding on, 3/26, p.28.
Use of glycerin as flux conditioner in hot, 5/21, p.23.

Gardner-Denver Co.:
Vertical compressors designed by, 2/5, p.48.

Gas:
Automatic, analysis for open hearth, 2/26, p.25.
Content in steel to be determined, 5/14, p.49.

Gas Cutting Machine:
Description of, 2/5, p.48.

Gas Washer:
Multizone, serves as scrubber and dryer, 4/2, p.44.

Gears:
Selecting right steels for heat treated, 6/11, p.48.

Gear Pump:
Description of, 2/12, p.40.

Gearmotors:
Single reduction, described, 3/5, p.45.

General Electric Co.:
Arc welding head designed by, 6/11, p.59.
Automatic time switch designed by, 3/12, p.46.
Circuit breaker panels designed by, 4/9, p.51.
Employes paid $10,000,000 in death and disability benefits, 2/19, p.12.
Financial report of, for 1933, 4/2, p.72; for first quarter, 1934, 4/30, p.16.
High-voltage transformers for Boulder Dam to be built by, 5/28, p.49.
Indicating lamp designed by, 2/26, p.40.
Inverted converters designed by, 6/4, p.53.
New electrode for class 1 welds developed by, 5/7, p.43.
New types of rubber-insulated cable designed by, 4/16, p.55.
Plunger-type relays designed by, 2/5, p.49.
Pressure governors designed by, 2/19, p.38.
Reclosing device for oil circuit breakers designed by, 4/2, p.51.
Small heating units designed by, 3/19, p.54.
Special electrode made by, for vertical and overhead welding, 6/4, p.26.
Timing control for welders designed by, 5/28, p.52.
Turbine-gear sets designed by, 1/22, p.36.
Unusually large electrical equipment being built by, 2/19, p.28.
Water-lubricated fabric rollneck bearings designed by, 4/23, p.45.
Weatherproof outlet designed by, 3/26, p.53.
Welding electrode designed by, 5/28, p.57.

General Houses Inc.:
Contract let by, for four steel houses, 3/19, p.14.
Residence 90 per cent steel designed by, 5/21, p.28.

General Motors Corp.:
Manufacture of knee action spring suspensions by, 6/18, p.31; 6/25, p.27.

General Refractories Co.:
Financial report of, for first quarter, 4/30, p.11.
Tests for air furnace bung brick devised by, 6/18, p.36.

Geometric Tool Co.:
Combination die head designed by, 2/5, p.48.

Germany:
Review of business in, for 1933, 1/1, p.166.
See Imports, Exports, Iron and Steel Production.

Giddings & Lewis Machine Tool Co.:
Two-spindle horizontal boring, drilling and milling machine designed by, 2/26, p.40.

Globe Machine & Stamping Co.:
Tilting tumbling barrel designed by, 4/30, p.47.

Globe Steel Tubes Co.:
Seamless tubes hot rolled in new mill of, 4/9, p.48.

Glycerin:
Use of, as flux conditioner in hot galvanizing, 5/21, p.23.

Goodrich Rubber Co., B. F.:
Hose joint designed by, 5/28, p.58.
Multi-V-belt designed by, 6/18, p.63.
Rubber used in putty by, 6/25, p.48.

Government:
By alphabet, 1/22, p.14; 1/29, p.14.

Governor:
Pressure, described, 2/19, p.38.

Graham Mfg. Co.:
Grinding wheel dresser holders designed by, 2/5, p.48.

Grain Size:
Meeting of A.S.M. considers, 4/30, p.44.

Granite City Steel Co.:
Financial report of, for 1933, 3/5, p.12; for first quarter, 1934, 5/7, p.14.

Grease Gun:
Description of industrial, 6/11, p.57.

Great Britain:
Review of business in, for 1933, 1/1, p.163.
See Imports, Exports, Iron and Steel Production.

Great Lakes Steel Corp.:
Loss of NRA eagle threatened, 5/28, p.14.

Great Northern Iron Ore Properties:
Financial report of, for 1933, 2/12, p.13.

Greer Steel Co.:
Four-high cold strip mill to be built by, 3/5, p.11.

Griffis, R. O.:
Biographical sketch, 6/4, p.13.

Grinder:
Automatic saw, described, 2/19, p.39.
Cam contour, described, 3/12, p.45.
Centerless, internal, described, 6/4, p.37.
Crankpin, described, 2/12, p.38.
Cylindrical, described, 1/22, p.36.
Description of, and lapper, 6/4, p.52.
Device for grinding ends of coiled springs described, 1/29, p.38.
Hand, described, 4/16, p.54.
High-speed, described, 3/26, p.54.
Hydraulic internal race, described, 3/12, p.45.
Internal centerless, described, 2/26, p.40.
Internal tube, described, 1/8, p.44.
Oil-groove, described, 6/4, p.50.
Precision internal, described, 3/19, p.54.
Precision, described, 1/29, p.39.
Three-wheel tool, described, 3/12, p.46.
Tool and production, described, 3/5, p.45.
Tool, for cemented carbide, described, 2/19, p.39.

Grinding:
Close limits on helical spring ends, 4/9, p.31.
Conveyors and unloaders aid in, of spring rods, 6/4, p.27.
Internal, by chuckless method, 2/26, p.24.

Griscom-Russel Co.:
Fuel oil heater designed by, 3/5, p.45.

Gross Engineering Corp.:
Lead-coated pipe produced by, 5/14, p.32.

Gulf States Steel Co.:
Financial report of, for fourth quarter and year, 1/22, p.11; 2/26, p.12.

Gummed Paper:
Special, for application to metal and coated surfaces, 4/9, p.31.

Gunite Foundries Corp.:
Hardening process for malleable and gray iron castings developed by, 2/26, p.23.

H

Hack Saw:
Bench-type, described, 5/21, p.54.

Hackett, Samuel E.:
Biographical sketch of, 6/4, p.19.

Hamaker, L. S.:
Biographical sketch of, 6/18, p.23.

Hammond Machinery Builders Inc.:
High-speed grinder designed by, 3/26, p.54.
Tool and production grinder designed by, 3/5, p.45.

Hanchett Mfg. Co.:
Grinder for coiled spring ends designed by, 1/29, p.38.
Saw grinder designed by, 2/19, p.39.

Handy & Harman:
New low-temperature brazing alloy of, being distributed, 5/7, p.43; 6/25, p.47.

Hanna Co. M. A.:
Financial report of, for 1933, 3/5, p.12.

Hanna Engineering Works:
Manifold valve designed by, 6/4, p.53.
Squeeze riveter designed by, 3/26, p.54.

Harbison-Walker Refractories Co.:
Financial report of, for first quarter, 4/30, p.16.

Hardening, Age:
Process predicted for use on steel, 3/19, p.53.

Harnischfeger Corp.:
Crane lowering relay designed by, 4/23, p.47.
Rail ends and crossing castings resurfaced by new process of, 5/14, p.40.

Harrison, Robert E. W.:
Biographical sketch of, 5/28, p.19.

Haveg:
Pickling tanks of, described, 2/19, p.29.

Haveg Corp.:
Pickling tanks molded from synthetic resin material by, 2/19, p.29.

Hays Corp.:
Combustion test set designed by, 2/12, p.40.

Heald Machine Co.:
Centerless grinding machine designed by, 6/4, p.37.
Internal grinding by chuckless method developed by, 2/26, p.24.
Internal centerless grinder designed by, 2/26, p.40.

Hearth-Crete:
Refractory material for monolithic bottoms, 2/12, p.28.

Heat Treating:
Rail-ends sorbitized to prevent batter, 1/22, p.27.
Retarded cooling of rails to prevent cracks described, 4/2, p.44.
Review of progress in, for 1933, 1/1, p.126.
Tools treated in salt baths last longer, 4/2, p.32.

Heating Unit:
Small, described, 3/19, p.54.

Heisler Locomotive Works:
Unusual fireless locomotive built by, 5/14, p.41.

Helmet:
Description of, 4/23, p.46.

Here and There in Industry:
1/1, p.203; 1/8, p.42; 1/15, p.44; 1/22, p.52; 1/29, p.60; 2/5, p.68; 2/19, p.58; 3/12, p.67; 3/19, p.75; 3/26, p.15; 4/2, p.16; 4/16, p.74; 4/23, p.19; 4/30, p.68; 5/7, p.60; 5/14, p.18; 5/21, p.74; 5/28, p.21; 6/4, p.21; 6/18, p.85; 6/25, p.16.

Hevi-Duty Electric Co.:
Excess temperature cutout designed by, 2/12, p.38.

High-Speed Steel:
Production of, in coreless induction furnace, 5/28, p.45; 6/25, p.41.

High-Speed Tools:
Plant expansion may be revolutionized by, 6/11, p. 46.

Highway Joint:
Device to lace concrete slabs, 3/19, p.40.

Hisey-Wolf Machine Co.:
Internal precision grinder designed by, 3/19, p.54.
Precision grinder line designed by, 1/29, p.39.

Hoadley, Franklin R.:
Biographical sketch of, 2/19, p.19.

Hoist:
Chain, described, 4/2, p.51.
Electric, described, 1/29, p.39.

Holton, C. R.:
Biographical sketch, 1/15, p.17.

Homestead Valve Mfg. Co.:
High-pressure cleaning jenny designed by, 4/23, p.46.

Hommel Co., O.:
Fellowship in enameling technology established by, 3/19, p.30.

Honing Machine:
Description of, 5/28, p.58.

Honing Tool:
Description of, 3/19, p.54.

Horton, William H.:
Biographical sketch, 2/5, p.20.

Hose Joint:
Description of, 5/28, p.58.

Howland, William I., Jr.:
Biographical sketch, 1/8, p.17.

Hunt-Spiller Mfg. Corp.:
Device for removing dust from swing grinders designed by, 4/2, p.38.

Hurley Machine Co.:
Manufacture of household appliances by, 4/2, p.23.

Hutto Engineering Co. Inc.:
Honing tool designed by, 3/19, p.54.

I

Ideal Commutator Dresser Co.:
Sealing compound developed by, 6/11, p.57.

Imports:
Of Belgium for 1933, by months, 1/1, p.171.
Of France for 1933, by months, 1/1, p.169.
Of Germany for 1933, by months, 1/1, p.166.
Of Great Britain for 1933, by months, 1/1, p.163.
Of United States, statistics by months: November, 1/8, p.12; December, 2/5, p.16; January, 3/5, p.13; 3/12, p.18; February, 4/2, p.12; 4/9, p.52; March, 4/30, p.14; April, 5/28, p.14; 6/11, p.62.
Of world, by years, 1/1, p.118.

Inclusions:
Nonmetallic, in steel are useful, 2/19, p.32.

Industrial Brownhoist Corp.:
Diesel crane designed by, 6/25, p.47.

Industrial Dial:
By months, January, 1/29, p.21; February, 2/26, p.19; March, 3/26, p.23; April, 4/30, p.21; May, 5/28, p.23; June, 6/25, p.23.

Industrial Furnaces:
See Furnaces.

Industrial Locomotives:
See Locomotives.

Industrial Men in Day's News:
See Biographical Sketches.

Ingersoll-Rand Co.:
Boiler feed pump designed by, 4/9, p.51.
Portable air compressors designed by, 6/18, p.58.

Ingersoll Steel & Disc Co.:
Large stainless-clad steel plates fabricated by, 3/26, p.32.
New stainless-clad for papermill service offered by, 2/12, p.35.

Ingots:
See Steel Ingots.

Inland Steel Co.:
Financial report of, for fourth quarter and 1933, 2/5, p.12; 2/26, p.12; for first quarter, 1934, 4/30, p.11.
New 4-high strip mill to roll tin plate, 2/12, p.27.

Institute of British Foundrymen:
Report of annual meeting of, 6/25, p.33.

Institute of Scrap Iron and Steel Inc.:
Code authority set up by, 1/22, p.13.

Insulated Steelbilt Structures Inc.:
New design for steel house developed by, 4/16, p.30.

Insulation:
Block for high temperatures described, 4/9, p.30; 6/25, p.47.
Super-refractory, alters furnace design, 6/4, p.43.

Insurance:
Unemployment, in Wisconsin, effective July 1, 6/25, p.12.

Interlake Iron Corp.:
Financial report of, for 1933, 2/19, p.12.

Interlake Steamship Co.:
Financial report of, for 1933, 4/16, p.12.

International Acetylene Association:
Motion picture film produced by, 5/28, p.49.

International Derrick & Equipment Co.:
Steel barrel racks designed by, 5/21, p.39.

International Nickel Co. of Canada:
Financial report of, for first quarter, 5/21, p.11.
Statistics of use of nickel presented by, 6/11, p.33.

International Tin Research and Development Council:
Research in tin in United States undertaken by, 5/28, p.42.

Iron:
See Pig Iron, Cast Iron.

Iron and Steel Exports:
See Exports.

Iron and Steel Imports:
See Imports.

Iron and Steel Production:
Of Belgium for 1933, by months, 1/1, p.171.
Of Canada, by months, November, 1/1, p.184; December-January, 2/26, p.16; April, 5/28, p.14.
Of Canada, for 1933 and preceding years, 1/1, p.201.
Of Europe for 1933, 1/29, p.19.
Of France for 1933, by months, 1/1, p.169.
Of Germany for 1933, by months, 1/1, p.166.
Of Great Britain in 1933, by months, 1/1, p.163.
Of pig iron, in 1933, 6/25, p.21.
Of pig iron, 1857-1933, by months and years, 1/1, p.157.
Of steel ingots, 1924-1933, by months, 1/1, p.156.
Of steel rails, by years, 6/25, p.20.
Of world, by years, 1/1, p.117.
Record made by Russian plants, April 25, 6/25, p.12.
Statistics of output of steel code members, 6/18, p.27.
Timken Steel & Tube Co. sets new record for electric furnace alloy steel output, 6/11, p.18.
See also Steel Ingots, Pig Iron.

Iron and Steel Scrap:
See Scrap, Institute of Scrap Iron and Steel Inc.

Iron Ore:
Code for, being formulated, 6/11, p.18.
Depression lifting from, 2/12, p.19.
Increased imports of low phosphorus, foreseen, 4/23, p.12.
Prices of, 1910-1933, by months, 1/1, p.139.
Red hematite, now shipped from North Africa, 1/22, p.50.
Review of, for 1933, 1/1, p.107.
Russian output in November, 1/1, p.203.
Shipments of, for 1933 at lower lake ports, 1/15, p.42.
Supply on hand may prevent strike of miners, 5/21, p.10.

Jahn Co., C. R.:
Unusually large trailer for pipe transport sold by, 3/12, p.38.

Japan:
Factor in galvanized sheet trade, 1/1, p.202.
Large deposits of nickel ore discovered in, 1/22, p.13.

Jefferson Electric Co.:
Superlag fuses designed by, 3/19, p.56.

Jenny:
Cleaning, described, 4/23, p.46.

Jig:
Tool, described, 6/4, p.53.

Jig Borer:
Large, described, 3/26, p.53.

Johns-Manville:
Insulation block for high temperatures introduced by, 4/9, p.30; 6/25, p.47.

Johns-Manville Sales Corp.:
Sound-absorbent tile designed by, using steel, 6/18, p.34.

Jones & Lamson Machine Co.:
Automatic lathe designed by, 2/12, p.38.
Comparator and measuring unit designed by, 1/15, p.30.
Stationary-type tangent dies designed by, 6/4, p.52.

Jones & Laughlin Steel Corp.:
Financial report of, for fourth quarter and 1933, 1/29, p.10; 2/26, p.12; for first quarter, 1934, 4/30, p.11.

Journal Lubricator Co.:
Self-contained unit designed by, 1/29, p.39.

K

Kane & Roach Inc.:
Bending roll designed by, 1/29, p.39.

Kearney & Trecker Corp.:
Rail-type milling machine designed by, 1/22, p.36.

Kennedy Valve Mfg. Co.:
Globe and angle valve designed by, 2/26, p.40.

Kent-Owens Machine Co.:
Milling machine designed by, 1/29, p.38.

Kenyon, Reid L.:
Biographical sketch of, 6/4, p.13.

Knapp Monarch Co.:
Plant of, at Belleville, Ill., abandoned after labor trouble, 3/26, p.12.

Knee Action:
Manufacture of, spring suspensions, 6/18, p.31; 6/25, p.27.

Knife Grinder:
Description of, 5/28, p.58.

Kommers, J. B.:
Metal strength increased by graduated stressing, 3/5, p.26.

Koppers Gas & Coke Co.:
Financial report of, for 1933, 4/16, p.12.

Kron Co.:
Unit weight scale designed by, 6/11, p.59.

L

Labor:
Added power given national labor board to regulate employe relations, 2/5, p.13.
Agreements signed with United Mine Workers for captive mines, 3/5, p.12.
Board of three to mediate in steel strike, 6/25, p.10.
Crisis in, due to bungling by amateurs, 3/19, p.20.
Demands by Amalgamated to be presented to steel companies, 5/21, p.10.
Elections for representatives of, at various mines is ordered, 3/26, p.11.
Employes of Edward G. Budd Mfg. Co., refuse to vote on A.F.L. representation, 3/26, p.11.
Employment in steel casting industry increased under code, 6/18, p.18.
Great Lakes Steel Corp. cited by national labor board, 5/14, p.13; citation withdrawn, 5/21, p.12.
High cost of union membership, 5/28, p.13.
Increased steel employment cuts burden of carrying unemployed, 1/8, p.10.
Industry's stand in opposition to unionization epitomized, 3/19, p.11.
Inquiry being made into fall riots at Ambridge, Pa., 3/19, p.12.
Laclede Steel Co. employes asked if representation election is desired, 4/9, p.12.
Maintenance of open shop voiced by E. G. Grace, 5/28, p.12.
Minority employes entitled to representation, court rules, 2/26, p.12.
NRA orders labor provisions of codes displayed by employers, 2/19, p.11.
Nash strike near settlement, 4/16, p.10.
National union drive loses momentum, 4/23, p.10.
New representation plan of Carnegie Steel Co. being voted, 3/5, p.12.
Plan for handling industrial disputes is suggested, 5/21, p.12.
Problem of, not solved, 4/2, p.20.
Proposal to scrap machinery to aid, 2/19, p.15.

Labor (continued)
Reduction in hours by steel industry since 1923, 6/18, p.22.
Republic Steel Corp. under fire by, 2/19, p.12.
Responsibilities of, set forth, 2/19, p.13.
Shortage of skilled, in steel industry foreseen, 1/22, p.11; 6/25, p.36.
Shorter week, higher wage rate asked by NRA, 3/12, p.10.
Shorter week increases overhead rapidly, 3/19, p.74.
Split in Amalgamated weakens threat of steel strike, 6/4, p.10.
Steel, appears apathetic to strike proposal, 6/11, p.14.
Steel employes approve changes in employe representation plan, 2/26, p.11.
Steel industry employment increases, 5/7, p.14.
Steel industry to resist unionization, 3/19, p.10.
Strike by Amalgamated set for June 16, 5/28, p.13.
Strike of Edward G. Budd Mfg. Co. employes settled, 4/9, p.12.
Strike of upper lake ore miners not expected, 5/21, p.10.
Survey of, indicates sensitive situation, 3/26, p.13.
Text of resolution creating board to mediate in labor disputes, 6/25, p.10.
Thirty-hour bill opposed by NRA administrator, 2/26, p.11.
Thomas furnace workers vote for A. F. of L. representation, 4/30, p.12; National labor board to review, 5/14, p.13.
Threat of strike by June 20 by Amalgamated, 5/7, p.12.
Unemployment insurance in Wisconsin in effect July 1, 6/25, p.12.
Wage increase granted by Aluminum Co. of America, 3/19, p.12.
Wagner bill forbids company unions, 3/5, p.12.
Revised Wagner bill opposed by American Iron and Steel institute, 6/4, p.11.
Weirton Steel Co. employe representation dispute sent to department of justice, 3/5, p.12.
See also Employment, Unemployment, Employe Representation, NRA, Weirton Steel Co., American Iron and Steel institute, Wagner Bill.

Laclede Steel Co.:
Financial report of, for 1933, 3/26, p.12.
Need for employe representation election to be probed, 4/9, p.12.

LaCrosse Boiler Co.:
Unusually large trailer for pipe transport built by, 3/12, p.38.

Lamp:
Indicating, described, 2/26, p.40.

Lamp Posts:
Old-fashioned, ordered for Williamsburg, Va., 6/11, p.56.

Lamson & Sessions Co.:
Cold heading methods of, 1/29, p.23.
Financial report of, for 1933, 3/5, p.12.

Landis Machine Co. Inc.:
Collapsible tap designed by, 3/5, p.44.
Threading machine designed by, 5/7, p.57.

Landis Tool Co.:
Hydraulic internal race grinder designed by, 3/12, p.45.

Langelier Mfg. Co.:
Tapping machine designed by, 3/26, p.53.

Lapping Machine:
Description of, 2/12, p.40.

Lapping Wheels:
Description of Spedia, 6/11, p.57.

Larkin, J. M.:
Biographical sketch, 1/15, p.17.

Lathe:
Automatic, described, 2/12, p.38.
Bench, described, 5/28, p.57.
Full automatic, described, 1/22, p.36.
High-speed turret, described, 3/5, p.44.
Semiautomatic, described, 6/25, p.50.
Vertical, equipped with speed shift and flexible feeds, 3/5, p.27.
Vertical turret, described, 2/5, p.48.

Lavino & Co., E. J.:
Stainless steel production arranged by, 6/4, p.16.

Lea Inc., W. C.:
Galvanized steel frame for house construction, 5/14, p.30.

Leeds & Northrup Co.:
Radiation pyrometer designed by, 2/19, p.39.
Round chart recorder designed by, 1/8, p.45.

Lees-Bradner Co.:
Helical gear lead testing unit designed by, 3/26, p.53.

Lewis Machine Co.:
Wire straightening, cutting machine designed by, 1/15, p.30.

Lift Trucks:
See Trucks.

Light Source:
New, for use in steel mills, 3/12, p.46.

Lincoln Electric Co.:
Automatic welder designed by, 6/11, p.59.
Electrode to give hard surface designed by, 3/12, p.42.
High tensile strength electrode developed by, 5/28, p.49.
New electrode for welding cast iron developed by, 2/26, p.25.
Remote control for arc welders designed by, 3/26, p.53.
Self-protected motor designed by, 3/5, p.44.

Lindberg Steel Treating Co.:
Furnace control designed by, 4/30, p.47.

Linde Air Products Co.:
Filter for oxygen regulators designed by, 6/18, p.58.
Pipe cutting unit designed by, 1/29, p.39.
Stationary cutting machine designed by, 2/19, p.39.

Link-Belt Co.:
Variable speed transmission designed by, 4/23, p.47.

Lipe Inc., W. C.:
Gear tooth chamfering machine designed by, 5/7, p.58.

Littell Machine Co., F. J.:
Automatic centering reel designed by, 6/4, p.52.

Lloyd, George C.:
Biographical sketch, 1/22, p.17.

Lloyd, John:
Biographical sketch, 3/5, p.19.

Locomotive:
Arc welded, described, 4/23, p.46.
Comparison of buying of, by years, 4/2, p.72.
Diesel, described, 2/5, p.48; 3/5, p.44.
Diesel, for Hawaii, 3/19, p.40.
Heavy-duty gasoline described, 2/19, p.39.
Industrial, described, 1/29, p.39.
Unusual fireless, described, 5/14, p.41.
Use of common and special steels in, 4/30, p.25.

Lorenz Jr., F. A.:
Biographical sketch of, 5/7, p.20.

Lubricant:
Metallic lead, described, 2/19, p.28.

Lubrication:
Extreme pressure lubricants give high power transmission through bearings, 5/28, p.55.
Graphite, device described, 6/25, p.48.
Need of, in thread cutting, 3/26, p.28.
Self-contained unit for, described, 1/29, p.39.

Ludlum Steel Co.:
Financial report of, for 1933, 3/5, p.12; for first quarter, 1934, 4/30, p.16.

Lufkin Rule Co.:
Tape-rule designed by, 2/12, p.38.

Lyon Metal Products Co. Inc.:
Forming, welding and finishing sheets in commercial shelving, 5/21, p.26.
All-steel folding chair designed by, 4/30, p.29.

Mc

McClouth Steel Corp.:
Will install 20-inch reversing strip mill, 5/14, p.10.

McDill, R. D.:
Electronic gaging machine designed by, 5/28, p.57.

McKeesport Tin Plate Co.:
Financial report of, for 1933, 3/5, p.12.

M

Machine Tools:
Review of, for 1933, 1/1, p.128.
See New Equipment.

Machinery:
Improved prospects for export of, 6/11, p.60.

Machinery and Allied Products Industry:
Code for, is approved, 4/16, p.19.
Report of annual meeting of, 5/21, p.14.

MacLeod Co.:
Abrasive blast testing unit designed by, 4/16, p.55.

Magnetic Clutch-Coupling:
Description of, 2/12, p.40.

Magnetic Mfg. Co.:
Clutch-brake unit designed by, 4/16, p.54.
Multiple disk magnetic clutches designed by, 1/29, p.38.

Magnetic Separators:
Manufacture of, described, 5/21, p.53.
New type, described, 1/8, p.44.

Magnetic Starter:
Description of, 3/5, p.45.

Magnolia Metal Co.:
Bearing bronze stock developed by, 5/14, p.53.

Making Most of Methods and Materials:
1/8, p.28; 1/15, p.25; 1/22, p.33; 1/29, p.34; 2/5, p.34; 2/12, p.34; 2/19, p.34; 2/26, p.26; 3/5, p.32; 3/12, p.40; 3/19, p.32; 3/26, p.28; 4/2, p.32; 4/9, p.27; 4/16, p.34; 4/23, p.30; 4/30, p.26; 5/7, p.36; 5/14, p.37; 5/21, p.38; 5/28, p.37; 6/4, p.32; 6/11, p.43; 6/18, p.39; 6/25, p.34.

Malleable Castings:
Production and shipments of, statistics by months, January-February, 4/2, p.79; March-April, 6/4, p.78.

Malleable Founders' Society:
Officers elected by, 6/18, p.85.

Malleablizing:
Electric, furnace reduces time of 6/4, p.44.

Manganese Ore:
Prices of, 1915-1933, by months, 1/1, p.139.

Manometer:
Automatic regulator, described, 4/16, p.54.

Marble-Card Electric Co.:
Single-phase motors designed by, 2/19, p.39.
Splash-proof motor designed by, 2/5, p.49.

Marsh Corp., James P.:
New line of gages designed by, 5/28, p.57.

Mathews Conveyor Co.:
Heavy-duty roller conveyor designed by, 2/19, p.39.

Mattison Machine Works:
Internal tube grinder designed by, 1/8, p.44.
Sheet grinder designed by, 5/21, p.54.

Maxon Premix Burner Co.:
Ratio valve designed by, 2/12, p.40.

Meadows Mfg. Co.:
Manufacture of household appliances by, 4/2, p.23.

Medal Award:
American Iron and Steel institute medal to R. O. Griffis, Reid L. Kenyon and Robert S. Burns, 5/28, p.11.
Bessemer, to King George V, 4/9, p.12.
Gary medal to E. G. Grace, 5/28, p.11.

Merchandising:
Better, needed in 1934, 1/1, p.93.
Importance of, to steel industry, 1/22, p.10.

Mercury Mfg. Co.:
Tilting telescopic fork truck designed by, 1/8, p.44.

Merger:
Bethlehem Steel Co. may take over Williamsport Wire Rope Co., 6/11, p.19.
Republic Steel Corp. said to be absorbing Gulf States Steel Co., 1/15, p.12.

Meriam Co.:
Automatic manometer - regulator designed by, 4/16, p.54.

Metal & Thermit Corp.:
Welding electrodes designed by, 6/18, p.63.

Metal Coating:
Review of, for 1933, 1/1, p.133.

Metal Spray Co.:
Metal spray gun designed by, 5/14, p.53.

Metal Spray Gun:
Description of, 5/14, p.53.

Metalweld Inc.:
Demonstration of welding and metal spraying by, 6/11, p.36.

Meters:
Body for electric, described, 5/14, p.53.
Flow, described, 2/12, p.38.
Sight, described, 1/29, p.39.

Met-L-Wood:
Use of in truck bodies, 3/19, p.42.

Met-L-Wood Corp.:
Metalclad wood made by, used in new-type railroad car, 2/12, p.12.

Miller:
Vertical, die sinking unit described, 4/2, p.51.

Milligan Co., Fletcher F.:
Draft block designed by, 1/22, p.36.

Milling Cutter:
Description of, 3/19, p.56.

Milling Head:
High-speed universal, described, 2/5, p.49.

Milling Machine:
Description of, 1/29, p.38; 2/5, p.49.
Profile, described, 4/16, p.55.
Rail-type, described, 1/22, p.36.
Universal high-speed attachment for, described, 2/19, p.39.

Milton Mfg. Co.:
Financial report of, for 1933, 4/16, p.12.

Mirrors of Motordom:
1/8, p.15; 1/15, p.14; 1/22, p.15; 1/29, p.15; 2/5, p.19; 2/12, p.15; 2/19, p.17; 2/26, p.15; 3/5, p.17; 3/12, p.19; 3/19, p.17; 3/26, p.14; 4/2, p.17; 4/9, p.18; 4/16, p.16; 4/23, p.16; 4/30, p.18; 5/7, p.18; 5/14, p.17; 5/21, p.13; 5/28, p.18; 6/4, p.15; 6/11, p.20; 6/18, p.19; 6/25, p.15.

Moltrup Steel Products Co.:
Bars for nut stock marked for right and left threads by, 3/26, p.35.

Monarch Machine Tool Co.:
Cam milling attachment designed by, 2/19, p.38.
Full automatic lathe designed by, 1/22, p.36.

Moore Drydock Co.:
New method of steel caisson construction developed by, 2/19, p.26.

Morris Machine Works:
Double-suction pump designed by, 1/22, p.36.

Morse Chain Co.:
Flexible coupling designed by, 1/22, p.36.
One-way clutch designed by, 3/19, p.56.

Morton Mfg. Co.:
Boring, milling, drilling unit designed by, 2/12, p.38.

Motor:
Capacitor, described, 2/26, p.40.
Direct-current, fan-cooled, explosion-proof, described, 4/2, p.51.
Fan-cooled, described, 2/5, p.49.
Flanged head, described, 5/14, p.53.
Self-protected, described, 3/5, p.44.
Single-phase, described, 2/19, p.39.
Splash-proof, described, 2/5, p.49.
Split-phase, described, 1/29, p.39.
Varispeed upright, described, 4/23, p.47.

Motor Products Co.:
Forming operations on stainless steel strip, 6/25, p.30.

Motor Starter:
Description of, 6/25, p.50.

Mounting:
Mine car bearing, described, 6/25, p.48.

Munitions:
International trade in, from United States is small, 3/19, p.12.

Myers & Bros. Co., F. E.:
Financial report of, for 1933, 3/5, p.12.

Myers Engineering Equipment Co.:
New types valves designed by, 5/28, p.57.

N

NRA:
Code:
Action on various, by, 4/16, p.13.
Automobile, modified to allow 40-hour week, 1/15, p.12.
Budget situation clarified, 5/7, p.14.
Employment gains under steel castings, 6/18, p.18.
Fair trial for, urged, 2/19, p.20.
Gear manufacturers', under protest, 2/12, p.11.
General conferences on, at Washington, 3/12, p.10.
Gray Iron Founders' Society organizes to forward, 1/15, p.12.
Hearings on various codes before, 4/2, p.12.
Hearings on warehouse, 4/9, p.14.

NRA: Code (continued)
Iron ore, being formulated, 6/11, p.18.
Iron soil pipe, revision proposed, 1/29, p.13.
Iron ore, to be considered, 6/4, p.13.
Jobber differential clause objected to, 1/22, p.12.
John J. Connolly placed in administration of, 6/25, p.11.
Machinery and allied products industry approved, 1/29, p.13; 3/26, p.11; 4/15, p.19.
Malleable Founders' Society establishes regulations under, 1/15, p.12.
Manganese, is in effect, 5/21, p.11; amendments proposed, 1/29, p.12.
Metal window, approved, 1/22, p.12.
Necessity for including standards in, 3/12, p.44.
Regulations governing former employes of, 2/19, p.11.
Open forum for criticism of, brings 12 corrective points, 3/5, p.10.
Scrap, approved by president, 3/19, p.11.
Steel:
American Iron and Steel institute names committee to consider changes in, 4/30, p.10.
Conference on steel, reaches agreement, 5/21, p.10.
How steel has responded to, (chart), 3/19, p.11.
Its operation described by W. S. Tower, 5/28, p.80.
Price regulation provisions of steel, unchanged, 6/18, p.18.
Revised, adds price safeguards, 6/4, p.12.
Revision of steel, taken up by American Iron and Steel institute, 5/7, p.12.
Revision of, is considered, 6/11, p.18.
Steel plate fabricating, approved, 4/23, p.12.
Track equipment, approved, 4/23, p.12.
Reorganization of, to expedite decisions, 4/16, p.12.
Revisions in, suggested, 3/15, p.10.

Nails:
Prices of, 1907-1933, 1/1, p.154.

National Acme Co.:
Automatic screw machines designed by, 5/7, p.58.

National Alloy Steel Co.:
Alloy steel heating furnace skids designed by, 6/18, p.57.
Traction wheels designed by, 6/25, p.47.

National Association of Purchasing Agents:
Program of annual meeting of, 6/18, p.25.
Report of annual meeting of, 6/25, p.19.

National Brick Manufacturers' Research Foundation:
Meeting in 1935 to be at Buffalo, Feb. 17, 5/21, p.12.

National Enameling & Stamping Co.:
Financial report of, for 1933, 3/26, p.12.

National Machine Tool Builders' Association:
Report of spring convention of, 6/4, p.47.

National Machinery Co.:
Cold header designed by, 5/7, p.57.
Precision nut tapper designed by, 6/4, p.50.

National Metal Trades Association:
Manual on machine shop technology published by, 6/4, p.46.
Thirty-sixth annual convention of, set for April 25, 4/2, p.12.
Report of annual convention of, 4/30, p.13.

National Screw & Mfg. Co.:
Wire rod baker operated with controlled atmosphere, 2/19, p.30.

National Steel Corp.:
Financial report of, for fourth quarter and 1933, 2/5, p.12; 2/26, p.12; for first quarter, 1934, 4/30, p.11.

National Supply and Machinery Distributors' Association:
Report of meeting of, 5/28, p.16.

Navy:
Tonnage of steel in vessels under consideration is heavy, 1/15, p.16.

New England Iron League:
Annual outing of, 6/18, p.86.

New Equipment:
1/8, p.44; 1/15, p.30; 1/22, p.36; 1/29, p.38; 2/5, p.48; 2/12, p.38; 2/19, p.39; 2/26, p.40; 3/5, p.44; 3/12, p.45; 3/19, p.54; 3/26, p.53; 4/2, p.51; 4/9, p.51; 4/16, p.54; 4/23, p.46; 4/30, p.47; 5/7, p.57; 5/14, p.53; 5/21, p.54; 5/28, p.57; 6/4, p.50; 6/11, p.57; 6/18, p.58; 6/25, p.47.

New Jersey Structural Steel and Ornamental Iron Association Inc.:
Formation of, 4/2, p.12; code of, approved by governor, 5/7, p.12.

Newton Steel Co.:
Financial report of, for 1933, 4/16, p.12.

Nickel:
Large deposits of, ore discovered in Japan, 1/22, p.13.
Major use of, is for alloys, 6/11, p.33.
Steel plated with, supplied for fabrication, 3/5, p.26.

Norin Engineering Co.:
Squeeze riveter designed by, 2/5, p.49.

Northwest Engineering Co.:
Cushion clutch designed by, 4/30, p.47.
Dragline bucket designed by, 2/26, p.40.
Oil engine designed by, 2/12, p.40.

Norton Co.:
Cam contour grinder designed by, 3/12, p.45.
Crankpin grinder designed by, 2/12, p.38.
Cylindrical grinders designed by, 1/22, p.36.

Novo Engine Co.:
Centrifugal pumps designed by, 5/28, p.58.

Numbering Machine:
Description of, 1/29, p.38.

Nuts:
Right and left threads shown by stamped letters on, 3/26, p.35.

Nut Runner:
Description of, 4/9, p.51.

Nut Tapper:
Precision, described, 6/4, p.50.

Obituaries:
1/1, p.206; 1/8, p.18; 1/15, p.16; 1/22, p.19; 1/29, p.18; 2/5, p.21; 2/12, p.18; 2/19, p.18; 2/26, p.16; 3/5, p.18; 3/12, p.20; 3/19, p.18; 3/26, p.20; 4/2, p.72; 4/9, p.17; 4/16, p.18; 4/23, p.18; 4/30, p.19; 5/7, p.19; 5/14, p.20; 5/21, p.18; 5/28, p.20; 6/4, p.20; 6/11, p.23; 6/18, p.24; 6/25, p.18.

Ohio Electric Co.:
Lifting magnet controller designed by, 3/12, p.46.

Oil Engine:
Description of, 2/12, p.40.

Oil Heater:
Fuel, described, 3/5, p.45.

Oliver Instrument Co. Inc.:
Die-making machine designed by, 6/25, p.48.

Oliver Iron & Steel Corp.:
Special furnaces for heating bolt, nut stock, 2/26, p.21.

Open Hearth:
Review of progress in, for 1933, 1/1, p.121.
See also Furnaces.

Open Prices:
Steel institute defends steel, 2/12, p.10.

Open Shop:
Maintenance of, prophesied by E. G. Grace, 5/28, p.12.

Ore:
See Iron Ore, Manganese Ore.

Osborn Mfg. Co.:
Tramrail switch designed by, 1/22, p.36.

Otis Elevator Co.:
Blast furnace filling equipment built by, 3/26, p.48.

Otis Steel Co.:
Financial report of, for 1933, 3/26, p.12; for first quarter, 1934, 5/28, p.14.

Outlet:
Weatherproof, described, 3/26, p.53.

Oven:
Direct-fired for drying lime-coated rods, 6/11, p.56.
Direct-fired wire-baking, described, 2/19, p.30.
Electric, described, 6/25, p.48.

Overhead:
Rapid increase of, in shorter week, 3/19, p.74.

P

PWA.:
Breakdown of public works appropriations, 3/19, p.11.
Initials of, to be rolled into steel rails, 3/19, p.12.
Materials placed by, Oct. 1 to April 30, 6/25, p.11.
Progress of work under, 2/19, p.12.

Paasche-Airbrush Co.:
Airpainting machine designed by, 5/14, p.53.

Packages:
Award announced for most effective, 2/26, p.11.

Packing:
Ring, described, 3/19, p.56.

Palmer Steel Buildings Inc.:
Steel house designed by, 6/4, p.30.
Steel house to resist earthquakes designed by, 2/5, p.14.

Panel:
Circuit-breaker, described, 4/9, p.51.
Safety convertible electric power, described, 1/29, p.39.

Panelboard:
No-fuse circuit breaker lighting, described, 3/26, p.53.

Panelletes:
Description of, 2/12, p.40.

Parker, Edward L.:
Biographical sketch of, 6/18, p.20.

Patterson Foundry & Machine Co.:
Magnetic separator designed by, 1/8, p.44.

Per Capita:
Iron and steel production of world, by years, 1/1, p.116.
Production of steel in United States, by years, 1/1, p.117.

Perin Engineering Co. Inc.:
Sheet mill mechanization increases output, 4/30, p.34.

Personals:
1/1, p.205; 1/8, p.17; 1/15, p.17; 1/22, p.17; 1/29, p.17; 2/5, p.20; 2/12, p.17; 2/19, p.19; 2/26, p.17; 3/5, p.19; 3/12, p.21; 3/19, p.19; 3/26, p.21; 4/2, p.19; 4/9, p.16; 4/16, p.17; 4/23, p.17; 4/30, p.17; 5/7, p.20; 5/14, p.19; 5/21, p.17; 5/28, p.19; 6/4, p.19; 6/11, p.24; 6/18, p.23; 6/25, p.17.
See also Biographical Sketches.

Philadelphia Gear Works:
Valve operator designed by, 2/5, p.48.

Photo-Troller:
Description of, 4/9, p.51.

Pickling:
Tanks for, of molded synthetic resin material, 1/19, p.29.

Pig Iron:
Jackson, O., made base for basic, 1/29, p.12.
Prices of, by months and years, 1/1, p.140.
Production of, in 1933, 6/25, p.21.
Production of, statistics by months; December, 1/8, p.13; January, 2/5, p.15; February, 3/5, p.14; March, 4/9, p.14; April, 5/7, p.15; May, 6/4, p.16; 6/11, p.21.
Production of, 1857-1933, by months and years, 1/1, p.157.
World production of, by years, 1/1, p.117.

Pillsbury Flour Mills Co.:
Sifter of steel built into flour package by, 5/14, p.32.

Pioneer Gen-E-Motor Corp.:
Electric converter designed by, 6/18, p.63.

Pipe:
Lead-coated, described, 5/14, p.32.
Prices of cast iron, by months, 1/1, p.156.
Quality of centrifugally-cast, improved, 2/12, p.23.

Pipe Coupling:
Drop forged, described, 2/19, p.39.

Pipe Cutter:
Cutting and beveling machine described, 1/29, p.39.
Wheel-type, described, 1/15, p.30.

Pipe Mill:
Electric weld, to be added by Youngstown Sheet & Tube Co., 1/8, p.11.
See also Rolling Mill.

Pitkin Inc., Lucius:
Recent die casting developments, 2/5, p.25.

Pittsburgh:
Fifty years of business in, 1/29, p.12.

Pittsburgh Lectromelt Furnace Corp.:
Annealing furnace designed by, 2/12, p.38.
Small arc furnace designed by, 1/29, p.38.

Pittsburgh Screw & Bolt Corp.:
Financial report of, for first quarter, 4/30, p.11.

Pittsburgh Steel Foundry Co.:
Financial report of, for 1933, 4/16, p.12.

Pittsburgh Tube Co.:
Manufacture of buttweld pipe by, described, 1/8, p.21.

Plastic Forming of Metals:
Part II, Forces and flow of materials, 1/8, p.24; 1/15, p.27; 1/22, p.30; 1/29, p.27; 2/5, p.36; 2/12, p.29; 2/19, p.35; 2/26, p.27; 3/5, p.37; 3/12, p.34; Part III, Distribution of deformation and stress, 3/19, p.28; 3/26, p.33; 4/2, p.25; 4/9, p.40; 4/16, p.42; 4/23, p.40; 4/30, p.39; 5/7, p.51.

Plates:
See Steel Plates.

Plate Guard Rail Manufacturers' Association:
Formation of, 4/16, p.28.

Polisher:
Automatic roll, described, 5/7, p.57.
Description of, 6/18, p.63.
External Tube-end, described, 4/9, p.51.
Portable, described, 3/12, p.46.

Porcelain Enamel Institute:
Report of annual meeting of, 5/21, p.44.

Porter-Cable Machine Co.:
Lapping machine designed by, 2/12, p.40.
Universal high-speed milling machine attachment designed by, 2/19, p.39.

Potentiometer:
Recording, described, 4/16, p.54.

Power Saw:
Hydraulic, shear-cut, described, 1/29, p.38.

Precision Casting Co.:
Die casting methods of, 2/19, p.23.

Preheating:
Use of, makes flame cutting more economical, 3/26, p.30.

Press:
Plastic molding, described, 6/4, p.53.

Pressed Steel Car Co.:
Financial report of, for 1933, 2/12, p.13.

Prices:
Alloy bar filed on, 1/29, p.11.
Automobile manufacturers displeased at steel, 2/26, p.10.
Basing point, considered by federal trade commission, 3/12, p.15.
Comparison of automobile, for three years, 2/19, p.18.
Composite of steel, 1922-1933, by weeks and months, 1/1, p.158.
European iron and steel domestic, by months, 1/1, p.160.
European iron and steel for export, by months, 1/1, p.162.
Monthly average, for 1933, 1/1, p.138.
Open, discussed by NRA conference, 3/12, p.13.
Principle of, in steel code, is necessary factor, 2/12, p.20.
Revised steel code adds safeguards to, 6/4, p.12.
Second quarter, probably to be reaffirmed, 2/26, p.10.
Steel, filed with American Iron and Steel institute, 2/12, p.12; 3/12, p.15; 3/19, p.12; 3/26, p.11; 4/9, p.12; 4/30, p.67; 5/7, p.81; 5/14, p.72; 5/21, p.73; 5/28, p.77; 6/4, p.72.
Steel, to be probed by federal trade commission, 2/5, p.15.
See also American Iron and Steel institute.

Price Mfg. Co.:
Pinless clothesline of galvanized wire described, 1/29, p.30.

Prisons:
Special steels make them breakproof, 1/15, p.21.

Production:
See Iron and Steel Production.

Profiler:
Attachment for, described, 6/18, p.60.

Profits:
Manufacturing net, in 1933, 4/23, p.22.

Progress in Steelmaking:
1/8, p.26; 1/15, p.26; 1/22, p.35; 1/29, p.37; 2/5, p.44; 2/12, p.37; 2/19, p.38; 2/26, p.34; 3/5, p.35; 3/12, p.28; 3/19, p.47; 3/26, p.44; 4/2, p.42; 4/9, p.46; 4/16, p.49; 4/23, p.39; 4/30, p.43; 5/7, p.48; 5/14, p.47; 5/21, p.47; 5/28, p.51; 6/4, p.40; 6/11, p.53; 6/18, p.48; 6/25, p.39.

Projector:
Profile, described, 2/19, p.38.

Prosser & Son, Thomas:
Lapping wheels designed by, 6/11, p.57.

Pulley:
Variable speed, described, 2/19, p.38.

Pump:
Boiler feed, described, 4/9, p.51.
Centrifugal acid, designed by 4/9, p.51.
Centrifugal, described, 5/28, p.58.
Double-suction, described, 1/22, p.36.
Hydraulic, described, 5/21, p.54.

Push Button:
Description of, 3/19, p.54.

Putty:
Use of rubber in, 6/25, p.48.

Pyle-National Co.:
Flexible conduit fitting designed by, 2/19, p.38.

Pyrometer:
Indicating, described, 2/5, p.48.
Potentiometer, described, 4/2, p.51.
Radiation, described, 2/19, p.38.
Recording potentiometer, described, 2/26, p.40.
Rugged type, described, 3/12, p.45.
Self-contained optical, described, 1/15, p.30.

Pyrometer Instrument Co.:
Recorder for testing welding or absorption glass, designed by, 4/2, p.51.
Self-contained optical pyrometer designed by, 1/15, p.30.
Welding glass tester designed by, 2/12, p.40.

Q

Quickwork Co.:
Circle shear designed by, 2/5, p.49.
Rotary shear designed by, 1/22, p.36.
Trimming machine designed by, 2/19, p.39.

Quigley Co. Inc.:
Chrome-base refractory introduced by, 2/12, p.28.

R

Racine Tool & Machine Co.:
Power saw designed by, 1/29, p.38.

Radio:
American Iron and Steel institute to inaugurate program by, 6/11, p.19.
Walter Tower, executive secretary of American Iron and Steel institute, broadcasts on steel code, 5/14, p.11.

Radiography:
Second course in metal, announced, 4/23, p.34.

Railcarbus:
New type car uses steel, (illustration), 2/12, p.12.

Rails:
See Steel Rails.

Railroads:
Expenditures of, during 1933, 2/12, p.11.
Government ownership proposal considered, 1/29, p.11.
New Haven articulated train awarded, 6/4, p.12.
Receipts and expenditures of, in 1933, 2/5, p.13.
Research bureau for, organized by United States Steel Corp., 2/19, p.10.
Research in streamlined train by, 6/18, p.17.
Streamlined train for Burlington, 5/7, p.13, 30.

Railroad Cars:
High-speed, pioneer uses for stainless steels, 4/9, p.23.
See Freight Cars, Streamlined Train.

Railway & Industrial Engineering Co.:
Air separator designed by, 2/26, p.40.

Ransohoff Inc., N.:
Tumbling barrel designed by, 2/12, p.40.

Reclosing Device:
Description of, 4/2, p.51.

Recorder:
Device for recording transmission of infra-red rays by glass, 4/2, p.51.
Oxygen, described, 2/19, p.38.
Round chart, described, 1/8, p.45.
Smoke, described, 6/18, p.60.
Weight, described, 2/26, p.40.

Rectanus, S. R.:
Biographical sketch, 5/21, p.17; obituary, 6/25, p.18.

Red Devil Mfg. Co.:
Gas bench furnace designed by, 2/5, p.49.

Reed-Prentice Corp.:
Vertical milling and die-sinking unit designed by, 4/2, p.51.

Reel:
Automatic centering, described, 6/4, p.52.

Refractory:
Chrome-base castable, for monolithic bottoms, 2/12, p.28.
Formula for calculating heat loss in, 4/2, p.38.
Improved chrome-base cement for, 5/28, p.36.
Permeability of, revealed by tests, 6/4, p.26.
Plastic insulating, described, 5/7, p.27.
Review of, for 1933, 1/1, p.133.
Tests for air furnace bung brick devised, 6/18, p.36.

Refrigeration:
Heat and, obtained by anthracite furnace, 4/30, p.28.

Regulator:
Draft control, described, 6/11, p.57.
Recording, described, 4/9, p.51.
Thermo master, described, 6/4, p.52.

Relay:
Crane lowering, described, 4/23, p.47.
Plunger-type, described, 2/5, p.49.

Reliance Electric & Engineering Co.:
Single reduction gearmotors designed by, 3/5, p.45.

Republic Carbon Co.:
Roof for, of corrosion-resisting corrugated sheets arc welded, 3/19, p.38.

Republic Flow Meters Co.:
New design for flow meters announced, 2/12, p.38.

Republic Steel Corp.:
Annual stockholders' meeting of, 4/16, p.11.
Close relations with Gulf States Steel Co. by stock purchase, 1/15, p.12; 1/22, p.11.
Financial statement of, for fourth quarter and 1933, 2/12, p.12; 2/26, p.12; for first quarter, 1934, 4/30, p.11.
Plant extensions planned by, 2/26, p.10.
Stainless steel tanks for spirit rectification, 3/19, p.32.

Research:
Iron pipe buried ten years subject of, 5/7, p.46.
Reports on German, issued, 4/2, p.41.
Trends and problems in, discussed, 5/14, p.44.
Windbracing design is under, 6/25, p.51.

Resurfacing:
Methods for, rail ends and crossing castings, 5/14, p.40.

Rhodes, Charles H.:
Biographical sketch, 3/12, p.21.

Rigby Mfg. Co.:
Precision valve designed by, 2/12, p.40.

River Traffic:
Carnegie Steel Co. sends 100th Ohio river tow, 1/29, p.11.
Statistics by months, January-February, 4/2, p.79; March-April, 6/4, p.78.

Riveter:
Squeeze, described, 2/5, p.49; 3/26, p.54.

Rivets:
Prices of structural, 1913-1933, by months, 1/1, p.155.

Road Guards:
Large steel market offered by, 4/16, p.27.

Robertson Co., John:
Hydraulic pump designed by, 5/21, p.54.

Rockwood Mfg. Co.:
Portable motor-drive truck designed by, 3/12, p.45.
Vertical drive bases designed by, 1/8, p.44.

Rodgers Mfg. Co., R. B.:
Bench-type hack saw designed by, 5/21, p.54.

Rogers & Co., Samuel C.:
Knife grinder designed by, 5/28, p.58.

Roller Bearing Co. of America:
Antifriction bearing designed by, 4/2, p.51.

Rolling Mill:
Carnegie Steel Co. plans continuous strip, at Valley plant, 6/25, p.11.
Cold strip mill awarded by Rotary Electric Steel Co. (Michigan), 5/21, p.12.
Construction of, in 1933, 1/1, p.103.
Continental Can Co. acquires rights to use Steckel mill, 5/7, p.29.
Continuous strip mill added by Wheeling Steel Corp., 1/8, p.11.
Ford Motor Co. to add, to its steel plant, 2/26, p.10, 15.
Four-high cold strip, to be built by Greer Steel Co., 3/5, p.11.
Japan buys twelve tin plate mills, 3/12, p.15.
McClouth Steel Corp. orders 20-inch reversing hot strip mill, 5/14, p.10.
Model of Ford sheet-strip mill ordered for Century of Progress, 5/21, p.12.
Model will roll steel sheets for Ford Motor Co. at Century of Progress, 5/28, p.14.
New English rod mill near completion, 1/15, p.23.
New 4-high strip mill of Inland Steel Co., 2/12, p.27.
Plastic forming of metals, Part II, forces and flow of material, 1/8, p.24; 1/15, p.27; 1/22, p.30; 1/29, p.27; 2/5, p.36; 2/12, p.29; 2/19, p.35; 2/26, p.27; 3/5, p.37; 3/12, p.34; Part III, Distribution of deformation and stress, 3/19, p.28; 3/26, p.33; 4/2, p.25; 4/9, p.40; 4/16, p.42; 4/23, p.40; 4/30, p.39; 5/7, p.51.
Republic Steel Corp. to install, at Gulf States Steel Co. plant, 1/22, p.11.
Review of progress in, for 1933, 1/1, p.122.
Ring-type cold strip, introduced, 5/21, p.48.
Seamless tubes rolled to size in new type, 4/9, p.48.
Several additional, planned, 2/26, p.10.
Steckel 42-inch hot, authorized by Youngstown Sheet & Tube Co., 2/19, p.11.
Steelmakers adopt 4-high, 1/1, p.103.
Washburn Wire Co. buys strip mill from Republic Steel Corp., 5/14, p.10.
Youngstown Sheet & Tube Co. reported to build strip mill, 5/14, p.10.
Youngstown Sheet & Tube Co. orders wide continuous hot strip mill, 6/18, p.17.

Roots-Connersville Blower Corp.:
Variable speed drive applied to blowers, pumps, 4/16, p.55.

Rotary Electric Steel Co. (Michigan):
Cold strip mill awarded by, 5/21, p.12.

Rotary Shear:
Description of, 1/22, p.36.

Russell, Roy V.:
Boring bar designed by, 5/21, p.54.

Russell, Burdsall & Ward Bolt & Nut Co.:
Direct-fired oven for drying lime-coated rods designed by, 6/11, p.56.
Rights to Marsden lock nut bought by, 3/19, p.34.

Russell Electric Co.:
Rugged pyrometer designed by, 3/12, p.45.

Russia:
Business prospects in, since recognition, 2/19, p.15.
Labor conditions at Magnitogorsk are condemned, 1/22, p.13.
Record in pig iron and steel production set by, 6/25, p.12.
Soviet lights 110th blast furnace, 4/9, p.19.
Status of patents in, 1/19, p.16.
Steel needs for railroad extension in Siberia immense, 1/15, p.16.

Rustless Iron & Steel Corp.:
Financial report of, for first quarter, 4/30, p.16; 5/7, p.14; for first five months, 1934, 6/25, p.17.

Rustproofing Machine:
Description of, 4/16, p.54.

Rust Remover:
Liquid, introduced, 3/12, p.31.

Rusticide Products Co.:
Liquid rust remover introduced by, 3/12, p.31.

Ryerson & Son Inc., Jos. T.:
Financial report of, for 1933.
St. Louis warehouse of, air conditioned for steel, 6/11, p.25.

S

Safety:
Accidents at Colorado Fuel & Iron Co. plants below last year, 5/14, p.13.
Fifty-four plants at Pittsburgh have six months free from accidents, 3/19, p.12.
Placques awarded to industrial plant winners, 5/21, p.12.
South Chicago plant of Youngstown Sheet & Tube Co. makes record, 6/25, p.12.

St. John X-Ray Service Inc.:
Second course in metal radiography announced by, 4/23, p.34.

Sand Blast:
Description of new, 1/29, p.39.

Saw:
Metal-cutting band, described, 4/23, p.46.

Scale:
Unit weight platform, described, 6/11, p.59.

Scanning the Field of Technology:
1/8, p.27; 2/5, p.42; 2/26, p.38.

Schwab, Charles M.:
Marks 72nd birthday, 2/26, p.10.

Scrap:
British steel industry faces shortage, 3/5, p.13.
Code for, industry approved, 3/19, p.11.
Export totals obscured by heavy tonnage of, 5/28, p.21.
Prices of, by months, 1/1, p.147.
Review of, for 1933, 1/1, p.109.
See also Institute of Scrap Iron and Steel Inc.

Screw Machine:
Automatic, described, 5/7, p.58.

Screw Threads:
Booklet on Dardelet, 4/16, p.39.

Scullin Steel Co.:
Financial report of, for 1933, 2/12, p.13; 2/26, p.12.

Sealing Compound:
Description of, 6/11, p.57.

Sears, Roebuck & Co.:
Windowless department store largely of steel to be built by, 6/4, p.13.

Selas Co.:
Annealing machine designed by, 1/22, p.36.

Sellers, Alexander:
Biographical sketch, 4/30, p.17.

Sellers & Co. Inc., William:
Tool grinder designed by, 2/19, p.39.

Shafting:
Information on manufacture and uses of, published, 4/2, p.35.

Shaw Blue Print Machine Co. Inc.:
Blueprint machine designed by, 5/28, p.58.

Shear:
Automatic blanking, described, 4/30, p.47.
Circle, described, 2/5, p.49.
Power, described, 3/19, p.56.
Rotary, described, 2/5, p.48.

Sheets:
See Steel Sheets.

Sheet Bars:
Prices of, 1913-1933, by months, 1/1, p.144.

Sheet Grinder:
New type belt, described, 5/21, p.54.

Sheet Mill:
See Rolling Mill.

Sheet Piling:
Use of to ward off Arctic ice, 4/23, p.32.

Sheffield Machine & Tool Co.:
Plug and ring thread gages designed by, 1/29, p.39.

Shelving:
Forming, welding and finishing sheets in commercial, 5/21, p.26.

Shick, F. A.:
Biographical sketch, 1/15, p.17.

Shoelkopf Mfg. Co.:
Door operator designed by, 1/22, p.36.

Sight Light Corp.:
Sight meter designed by, 1/29, p.39.

Simplification:
Revised roller bearing data includes larger sizes, 6/4, p.39.

Simpson, K. M.:
Resignation of, from NRA, 6/4, p.13.

Skids:
Alloy steel, for heating furnaces, described, 6/18, p.57.

Skilsaw Inc.:
Blower and suction cleaner designed by, 5/14, p.53.
Portable electric drill designed by, 4/30, p.47.

Slitter:
Gang, described, 6/25, p.47.

Sloss-Sheffield Steel & Iron Co.:
Financial report of, for 1933, 4/2, p.72.
Two abandoned blast furnaces of, sold for dismantling, 3/26, p.12.

Sly Mfg. Co., W. W.:
Helmet designed by, 4/23, p.46.
Sandblast machine designed by, 1/29, p.39.

Smith Corp., A. O.:
Metal-laced joint for highways designed by, 3/19, p.40.

Smith Inc., Winfield H.:
Variable speed pulley designed by, 2/19, p.38.

Smith-Taber:
Stiffness tester designed by, 1/29, p.38.

Smith & Serrell:
Flexible coupling designed by, 3/12, p.46.

Soaking Pits:
One-way firing type described, 4/23, p.45.

South Bend Lathe Works:
Bench lathe designed by, 5/28, p.57.

Southern Supply and Machinery Distributors' Association:
Report of meeting of, 5/28, p.16.

Soviet:
See Russia.

Sozonian Vault Co.:
Fabrication of burial vaults by welding, 3/26, p.25.

Spang-Chalfant & Co.:
Financial report of for 1933, 3/26, p.12; for first quarter, 1934, 6/4, p.14.

Specialty Sales & Service Corp.:
Industrial grease guns designed by, 6/11, p.57.

Speed Nuts:
Description of, 2/5, p.28.

Speed Reducers:
Motorized, described, 2/19, p.39.
Multi, described, 2/26, p.40.

Spiegeleisen:
Prices of, 1915-1933, by months, 1/1, p.140.

Spikes, Railroad:
Prices of, 1916, 1933, by months, 1/1, p.155.

Spray Booth:
Description of, 5/21, p.54.

Spray Finishing Machine:
Rotary, described, 2/5, p.49.

Square D Co.:
Circuit breaker of 600 amperes designed by, 2/26, p.40.
Lighting panelboard designed by, 3/26, p.53.
Panelettes, new line of, designed by, 2/12, p.40.
Safety convertible power panels designed by, 1/29, p.39.
Switch enclosures designed by, 3/19, p.54.

Stage, Ernest G.:
Biographical sketch, 3/26, p.21.

Stainless-Clad Steel:
Large plates of, used in rotary dryer, 3/26, p.32.
New, for papermill service, offered, 2/12, p.35.

Stainless Steel:
Dome for planetarium to be fabricated of, 6/4, p.13.
Forming operations on, strip for radiator moldings, 6/25, p.30.
New fields for, pioneered by high-speed railway cars, 4/9, p.23.
Production by E. J. Lavino & Co. and Buffalo Electric Furnace Corp. arranged, 6/4, p.16.
Tanks of, for rectifying spirits, 3/19, p.32.
Use of, in dairies and modern buildings, 2/19, p.28.
Use of, in roller chains, 5/14, p.53.
Use of in streamlined train of Burlington, 5/7, p.13, 30.
Welded fractionating tower fabricated of, 4/23, p.31.

Stamping:
Requirements in metals and equipment for contract, 6/11, p.34.

Standards:
Necessity for, in NRA codes, is considered, 3/12, p.44.
Refractory, to be recommended for approval, 4/30, p.25.
Revision of material, reported, 3/19, p.44.

Standardization:
Rules for production of micrographs are approved, 2/5, p.30.

Stanley Tools:
Nonsparking tools of beryllium copper designed by, 5/21, p.30.

Stanley Works:
Steel binding designed by, 2/12, p.40.

Stearns-Roger Mfg. Co.:
Arc welding used by, in fabricating large equipment, 3/12, p.42.

Steel:
Age hardening of, discussed, 3/19, p.53.
Challenge of welding to, 5/28, p.34.
Characteristics of, common to carbon and alloy, 5/28, p.25.
Determination of gas content of, 5/14, p.49.
Distribution of, in 1933, 1/1, p.96.
Era of tailormade, predicted, 3/5, p.16.
Flour sifter of, built into flour package, 5/14, p.32.
Giant in production, pigmy in merchandising, 5/14, p.22.
Heavy expense to mills to insure quality, 3/19, p.12.
Improved, gives economies in die casting, 2/19, p.23.
Large uses of, in small ways,
C clamps, 2/12, p.35.
Chipping hammers, 6/18, p.46.
Gaskets, 3/26, p.42.
Hand trucks, 4/9, p.34.
Lift trucks, 6/4, p.46.
Magnetic separators, 5/21, p.53.
Mopping tanks, 4/23, p.36.
Oily waste cans, 1/22, p.34.
Tool holders, 3/5, p.34.
Ventilating fans, 5/7, p.46.
Pavements of, tried in Germany, 2/19, p.25.
Per capita production in United States in 1933, 1/1, p.117.

Steel (continued)
Production of high-speed, in coreless induction furnace, 5/28, p.45; June 6/25, p.41.
Review of, market in 1933, 1/1, p.135.
Specifications for, discussed, 5/28, p.30.
Use of common and special grades in locomotive work, 4/30, p.25.
Use of, for barrel storage racks, 5/21, p.39.
Use of, in electric signs, 4/30, p.27.
Use of, in liquor stores, 5/7, p.43.
Use of, in luggage hardware, 5/7, p.39.
Use of, in new method of caisson construction, 2/19, p.26.
Use of, in sound-absorbent tile, 6/18, p.34.
Use of, in unusual exposition buildings, 5/7, p.28.
Use of, with glass, for luminous service station, 6/4, p.34.

Steel & Tubes Inc.:
Addition to Cleveland plant to be erected, 2/19, p.11.
Boiler tubing facilities of, being enlarged, 2/26, p.10.

Steel Barrel:
Full removable head, described, 5/14, p.34.
Production and shipments of, by months, January, 4/2, p.79; February-April, 6/4, p.78.

Steel Bars:
Prices of, 1901-1933, by months, 1/1, p.150.

Steel Billets:
Prices of, by months, 1/1, p.145.

Steel Binding:
Description of, 2/12, p.40.

Steel Castings:
Production and bookings of, by months, January-February, 4/2, p.79; March-April, 6/4, p.78.
Relation of welding to, 4/30, p.30.

Steel Chair:
Description and illustration of, 4/30, p.29.

Steel Co. of Canada Ltd.:
Financial report of, for 1933, 4/16, p.12.
Wire department and ingot mold department to be enlarged by, 3/5, p.11.

Steel Earnings:
See Earnings, Financial News of Steel Industry.

Steel Fence:
Farmers buying more, 6/11, p.31.

Steel Founders Society of America:
Employment under code shows large increase, 6/18, p.18.

Steel Furniture:
Shipments of, statistics by months, January 4/2, p.79; February-April, 6/4, p.78.

Steel House:
Advantages of steel floors stressed, 2/12, p.25.
Contract for four, let by General Houses Inc., 3/19, p.14.
Design to protect against earthquakes, 2/5, p.14.
Galvanized steel frame for use in, 5/14, p.30.
Insulated steel frame developed for, 4/16, p.30.
Low-cost, described, 4/9, p.37.
Low-cost experimental, described, 4/2, p.30.
Residence 90 per cent rolled steel is designed, 5/21, p.28.
Residence using steel, wood and cement is planned, 4/2, p.13.
Review of progress in development of, 1/1, p.95.
Shop-fabricated, described, 4/23, p.28.
Steel braces for houses in earthquake zone, 2/12, p.11.
Steel frame essential for all residences, 2/5, p.32.
West coast design has cellular-type wall units, 6/4, p.30.

Steel Industry:
How, has responded to NRA, (chart), 3/19, p.11.

Steel Ingots:
How, shrink in processing, 1/1, p.96.
Production of, statistics by months, December, 1/15, p.13; January, 2/12, p.13; February, 3/12, p.15; March, 4/9, p.13; April, 5/14, p.14; May, 6/11, p.21.
Production of, 1924-1933, by months, 1/1, p.156.
World production of, by years, 1/1, p.117.

Steel Panels:
Rehabilitation of old wooden buildings by use of, described, 4/9, p.30.

Steel Paving:
Trial of, in Germany, 2/19, p.25.

Steel Piling:
Fluted tubes adapted for use as, 6/4, p.25.

Steel Pipe:
Manufacture of buttweld, 1/8, p.21.
See also Pipe.

Steel Plates:
Bookings of fabricated, by months, January, 4/2, p.79; February-April, 6/4, p.78.
Prices of, 1895-1933, by months, 1/1, p.151.

Steel Production:
See Iron and Steel Production.

Steel Rails:
Ends, of, sorbitized to prevent batter, 1/22, p.27.
Prevention of shatter cracks possible by heat treatment, 6/18, p.57.
Price of, extended to March 31, 3/5, p.13.
Production of, in 1933, 6/25, p.20.
Retarded cooling of, described, 4/2, p.44.
Russian needs for Siberian railroad immense, 1/15, p.16.

Steel Shapes:
Prices of, 1895-1933, by months, 1/1, p.151.

Steel Sheets:
Forming, welding and finishing, in commercial shelving, 5/21, p.26.
Mechanization of mills increases output of, 4/30, p.34.
Prices of, by months, 1/1, p.151.
Production and shipments of, statistics by months, February, 3/26, p.13; March, 4/23, p.11; April, 5/28, p.15; May, 6/25, p.72.

Steel Shipments:
Of United States Steel Corp., by months, January, 2/19, p.13; February, 3/19, p.14; 4/2, p.79; March, 4/16, p.11; April, 5/14, p.14; 6/4, p.78; May, 6/18, p.18.

Steel Springs:
New precision material for, described, 5/14, p.41.

Steel Strike:
Board of three to mediate in, 6/25, p.10.
Labor seems apathetic to proposed, 6/11, p.14.
Mediation board proposal may avert, 6/11, p.17.
Postponement voted by Amalgamated, 6/18, p.14.
Vote of employes on company works councils tabulated, 6/18, p.16.
What one day's halt in steel industry would cost, 6/18, p.14.

Steel Strip:
Prices of, by months, 1/1, p.153.

Steel Tanks:
Bolted before welding, 4/9, p.28.

Steel Wire:
Prices of, 1912-1933, 1/1, p.153.

Sterling Electric Motors Inc.:
Varispeed upright motor designed by, 4/23, p.47.

Stevens Metals Products Co.:
Stainless steel drums flash welded by, 3/26, p.36.

Stoker:
Chain grate, described, 4/23, p.47.
Sales of mechanical, by months, January, 4/2, p.79; February-April, 6/4, p.78.

Stokerunit Corp.:
Boring machine designed by, 2/19, p.38.

Stonhard Co.:
Wall patching material developed by, 5/7, p.43.

Straightener:
Description of, 4/23, p.46.
Roll feeder, described, 1/29, p.38; 2/5, p.48.

Strainer:
Backwashing, described, 4/16, p.40.

Strapping Tool:
Box, described, 1/22, p.36.

Streamlined Train:
Baltimore & Ohio orders two, 5/14, p.12.
Boston & Maine and Maine Central order, 6/18, p.17.
Chicago, Burlington & Quincy exhibits its Zephyr, 4/9, p.23; 4/23, p.10; 5/7, p.13, 30.
Illinois Central has funds for, 6/18, p.18.
New York, New Haven & Hartford Orders from Goodyear-Zeppelin Corp., 6/4, p.12.
See also Budd Mfg. Co., Edward G.

Streine Tool & Mfg. Co.:
Automatic roll polisher designed by, 5/7, p.57.

Strip:
See Steel Strip.

Strip Mill:
See Rolling Mill.

Structural Steel:
Bookings and shipments of fabricated, by months, January-February, 4/2, p.79; March-April, 6/4, p.78.
New Jersey forms own code on, 4/2, p.12.
New Jersey state code approved by governor, 5/7, p.12.

Struthers Iron & Steel Co.:
Financial report of, for 1933, 6/25, p.12.

Sulphur Dioxide:
Recovery of, from flue gas, 3/12, p.27.

Sundstrand Machine Tool Co.:
Automatic fuel unit designed by, 6/25, p.50.
Milling machine designed by, 2/5, p.49.
Tool grinder designed by, 3/12, p.46.

Superior Steel Corp.:
Financial report of, for 1933, 2/19, p.13; for first quarter, 1934, 5/7, p.14.

Surface Combustion Co.:
One-way fired soaking pits designed by, 4/23, p.45.

Sutton Engineering Co.:
Disk-type straightening, burnishing machine designed by, 4/23, p.46.

Swartwout Co.:
Liquid level control designed by, 3/19, p.54.
Master control designed by, 5/7, p.57.
Thermo master regulator designed by, 6/4, p.52.

Sweden:
Commercial treaty with, involving special steels, being negotiated, 2/12, p.10.

Swimming Pool:
Arc welded greenhouse-type structure houses, 6/4, p.35.

Switch:
Automatic time, described, 3/12, p.46.
Compact, described, 3/19, p.54.
Industrial, described, 3/26, p.54.
Tramrail, described, 1/22, p.36.
Treadless, described, 2/5, p.48.

Swoboda Inc., H. O.:
Portable electric units for stress relieving welds designed by, 5/14, p.38.

T

Tagliabue Mfg. Co., C. J.:
Oxygen recorder designed by, 2/19, p.38.
Recording potentiometer designed by, 4/16, p.54.

Tap:
Collapsible, described, 3/5, p.44.

Tape-Rule:
Description of, 2/12, p.38.

Tapping Machine:
Horizontal bench-type, described, 3/26, p.53.

Taps:
High-speed, described, 1/29, p.39.

Tariff:
Canadian, on tubes may be altered, 1/22, p.12.

Taylor Instrument Co.:
Recording regulator designed by, 4/9, p.51.

Taylor Mfg. Corp.:
Static balancer designed by, 2/19, p.38.

Taylor-Winfield Corp.:
Welding machines designed by, 6/11, p.57.

Technology of Steel:
See Scanning the Field of Technology.

Temperature:
Study of metals at high, 1/22, p.28.
Tests of steel at high, 3/12, p.27.

Tennessee Coal, Iron & Railroad Co.:
Improved blast furnace tuyere designed by, 3/12, p.31.

Tests:
Report of impact, on cast iron, 4/2, p.36.

Tester:
Combustion, described, 2/12, p.40.
Stiffness tester described, 1/29, p.38.
Portable, described, 6/4, p.50.
Helical gear lead, described, 3/26, p.53.

Thawing Equipment:
Devices developed to aid in car dumping, 5/28, p.54.

Thermit:
Use of in rapid welding, 3/26, p.30.

Thermostat:
Bearing, described, 1/29, p.38.

Thompson Electric Co.:
Lamp shock absorber designed by, 2/26, p.40.

Thomson-Gibb Electric Welding Co.:
Automatic welder designed by, 3/19, p.54.
Machine designed by, for welding reinforcing wire mats, 4/9, p.30.
Seam welder designed by, 2/12, p.38.
Welding press designed by, 5/7, p.58.

Threading Machine:
Description of, 5/7, p.57.

Threads:
Clean cut, on fiber depends on moisture content, 6/11, p.33.
Screw, forms of, described in booklet, 4/16, p.39.

Tie Plates:
Prices of, 1915-1933, by months, 1/1, p.155.

Tiffin Electro-Mechanical Co.:
Treadless switch designed by, 2/5, p.48.

Tile:
Sound-absorbent, utilizes steel, 6/18, p.34.

Timer:
Electronic, described, 3/19, p.54.
Welding, described, 3/26, p.54.

Timing Contactor:
Adjustable, described, 1/29, p.38.
Dial-type, described, 2/19, p.39.

Timken Roller Bearing Co.:
Mine car bearing mounting designed by, 6/25, p.48.

Timken Steel & Tube Co.:
New mark set by, in electric furnace alloy steel production, 6/11, p.18.

Tin:
Research on, in United States, undertaken, 5/28, p.42.

Tin Cans:
See Containers.

Tin Mill:
See Rolling Mill.

Tin Plate:
Output of, increased by sale of motor oil in cans, 4/9, p.28.
Prices of, 1903-1933, by months, 1/1, p.152.
Success of Canadian plant not bright, 2/19, p.11.

Tinnerman Stove & Range Co.:
Speed nut developed by, 2/5, p.28.

Toledo Scale Co.:
Weight recorder designed by, 2/26, p.40.

Tools:
Charts aid in selecting proper, 5/28, p.40.
Control and distribution system for, 5/14, p.25.

Tool Holders:
Manufacture of, described, 3/5, p.34.

Tool Steel:
Hardening of carbon, studied, 4/9, p.44.
Manufacture of, 6/18, p.51.
New P-F characteristic used to classify, 5/14, p.43.

Track Bolts:
Prices of, 1914, 1933, by months, 1/1, p.155.

Track Grinder:
Description of high-speed, 1/29, p.38.

Tractor:
New model, described, 3/26, p.53.

Tramrail:
Motor-driven carrier for, described, 1/29, p.38.
Switches for, described, 2/26, p.40.

Transformers:
High voltage, for Boulder Dam, 5/28, p.49.
Portable, described, 2/5, p.49.

Transmission:
Variable-speed, described, 4/23, p.47.

Transportation:
See River Traffic.

Transue & Williams Steel Forging Corp.:
Financial report of, for 1933, 2/12, p.13.

Treadwell Engineering Co.:
Ring-type cold strip mill introduced by, 5/21, p.48.

Trent Co., Harold E.:
Electric oven designed by, 6/25, p.48.
Metallic wound furnaces designed by, 6/18, p.60.

Trimming Machine:
Description of, 2/19, p.39.

Troy Furnace Corp.:
Formation of, 4/2, p.18.

Truck:
Description of industrial, 6/18, p.58.
Hand, methods of manufacture of, 4/9, p.34.
Portable motor-drive, described, 3/12, p.45.
Tilting telescopic fork, described, 1/8, p.44.

Tube Reducing Corp.:
Mechanical tubing plant to be established by, 3/5, p.11.

Tubing:
Steel, formed for automobile seat frames, 5/14, p.34.

Tumbling Barrel:
Tilting, described, 4/30, p.47.
Welded steel, described, 2/12, p.40.

Turbine Gear Sets:
Description of, 1/22, p.36.

Tuyere:
Improved form of blast furnace, 3/12, p.31.

U

USL Battery Corp.:
Electric arc welder designed by, 2/5, p.49.

Udylite Process Co.:
How effective is a cadmium coating, 4/30, p.23.

Unemployment:
See Employment, Labor.

Union Carbide & Carbon Corp.:
Financial report of, for 1933, 4/2, p.72.

Union Carbide & Carbon Laboratories Inc.:
Cromansil steel for structural purposes, 5/21, p.32.

Union Drawn Steel Co.:
Booklet on shafting issued by, 4/2, p.35.

Union Metal Mfg. Co.:
Fluted steel tubes adapted to use as piling by, 6/4, p.25.

United Engineering & Foundry Co.:
Financial report of, for first quarter, 4/30, p.16.

United States Pipe & Foundry Co.:
Financial report of, for 1933, 1/22, p.11.
Quality of centrifugally-cast pipe improved, 2/12, p.23.

United States Reduction Co.:
Aluminum in new form for alloying offered by, 2/12, p.32.

United States Steel Corp.:
Annual meeting of, starts thirty-fourth year, 4/2, p.13; 4/9, p.13.
Characteristics common to carbon and alloy steels shown by, 5/28, p.25.
Financial report of, for fourth quarter and 1933, 2/5, p.12; 2/26, p.12; for first quarter, 1934, 4/30, p.10.
Hearing of Elgin, Joliet & Eastern railroad ownership, 1/22, p.12.
Inventories of plants at Ojibway and Hamilton, Ont., sold, 5/7, p.13.
Pamphlet report of, issued, 3/19, p.14.
Percentage of total ingot production made by, 4/2, p.14.
Railroad research bureau organized by, 2/19, p.10.
Two new high tensile steels introduced by, 5/21, p.42.
See also Steel Shipments.

United States Stoneware Co.:
Centrifugal acid pumps designed by, 4/9, p.51.

Universal High Speed Tool Co.:
High-speed universal milling head designed by, 2/5, p.49.

Universal House Corp.:
Low-cost steel frame house designed by, 4/2, p.30.

Universal Power Corp.:
Arc welder designed by, 5/21, p.54.
Trailer welder designed by, 1/22, p.36.
Truck-mounted welder designed by, 3/26, p.54.

Universal Tool:
Boring, milling, drilling unit described, 2/12, p.38.

V

Valves:
Globe and angle, described, 2/26, p.40.
Manifold, described, 6/4, p.53.
New types of, described, 5/28, p.57.
Precision, described, 2/12, p.40.
Ratio, described, 2/12, p.40.

Valve Operator:
Description of, 2/5, p.48.

Vanadium-Alloys Steel Co.:
Federal trade commisson orders, to sell Colonial Steel Co. stock, 1/22, p.11; 2/19, p.11.
Financial report of, for first quarter, 5/7, p.14.

Vanadium Corp. of America:
Financial report of, for 1933, 3/26, p.12.

Van Ness, C. L.:
Steel house designed by, described, 4/9, p.37.

Varnish Products Co.:
Unit finishing of sheets by decalcomania methods, 6/4, p.28.

Vertical Drive Bases:
Description of, 1/8, p.44.

Vickers Inc.:
Gear pump and fluid motor designed by, 2/12, p.40.

Virginia Iron, Coal & Coke Co.:
Financial report of, for fourth quarter and 1933, 1/29, p.10.

Vulcan Iron Works:
Gasoline locomotive designed by, 2/19, p.39.

W

Wackman Welded Ware Co.:
Full removable head steel barrel designed by, 5/14, p.34.

Wadsworth Electric Mfg. Co. Inc.:
Industrial switches designed by, 3/26, p.54.

Wages:
Advance of 3 to 6 per cent granted by Western Bar Iron association, 5/7, p.15.
Amalgamated Association of Iron, Steel and Tin workers discusses, 4/30, p.12.
Bar iron bi-monthly settlement, by months, Jan.-Feb., 1/1, p.189.
Differentials between North and South discussed, 3/12, p.13.
Increase in, given by Aluminum Co. of America, 3/19, p.12.
Increase of 10 per cent in steelworks, in effect, 4/2, p.10.
Iron ore mining code sets 40 cents an hour basic wage, 6/11, p.18.
Scale for Amalgamated Association of Iron, Steel & Tin Workers is advanced, 4/16, p.10.
Sheet and tin plate bi-monthly settlement, by months, Feb.-March, 3/5, p.12.
Steel, on pre-depression level, 4/2, p.10.
Ten per cent increase in, asked by NRA, 3/12, p.10.
Western Sheet and Tin Plate Manufacturers association advances, 5/14, p.13.

Wagner Bill:
American Iron and Steel institute states grounds for opposition to, 3/19, p.13.
Discussion of, 4/2, p.11.
Employers and employes register opposition to, 4/9, p.10.
Opposition to by steel industry, 3/26, p.10.
Protests against enactment of, 3/19, p.10.
Revised, opposed by American Iron and Steel institute, 6/4, p.11.
Who will profit most from hearing on, 4/16, p.22.

Warner & Swasey Co.:
Clean threads on fiber discovered by, to depend on moisture, 6/11, p.33.
High-speed turret lathe designed by, 3/5, p.44.
New high-speed tools may revolutionize plant expansion, 6/11, p.46.

Warren Foundry & Pipe Co.:
Financial report of, for 1933, 2/12, p.13.

Washburn Wire Co.:
Buys strip mill from Republic Steel Corp., 5/14, p.10.

Washing Machines:
Making enameled steel tubs for, 1/22, p.23.

Washington:
Government by alphabet, 1/22, p.16; 1/29, p.14.
See Windows of Washington.

Waste Cans:
Manufacture of oily, 1/22, p.34.

Water Booths:
Description of, 4/16, p.54.

Water Transportation:
See River Traffic.

Waterbury Farrel Foundry & Machine Co.:
Gang slitting machine designed by, 6/25, p.47.
Roll feeding straightener designed by, 1/29, p.38; 2/5, p.48.

Waterways:
See River Traffic.

Weirton Steel Co.:
Date for hearings on suit against, is set, 4/9, p.12.
Employe representation dispute referred to department of justice, 3/5, p.12.
Labor policy of, in status quo, 2/19, p.12.
Non-coercion affidavits filed by, 4/30, p.12.
Stadium and swimming pool for employes to be built by, 2/26, p.12.
Suit against, filed by department of justice, 3/26, p.10.
See also Employe Relations.

Welder:
Arc, described, 5/21, p.54.
Automatic, described, 3/19, p.54; 6/11, p.59.
Description of spot and roll seam, 6/11, p.57.
Direct-current, described, 4/23, p.47.
Electric arc, described, 2/5, p.49.
High-speed, overhung rim, described, 6/4, p.38.
Trailer, described, 1/22, p.36.
Truck-mounted, described, 3/26, p.54.

Welding:
Arc, used in fabricating beet sugar equipment, 3/12, p.42.
Burial vaults fabricated by, 3/26, p.25.

Welding (continued)
Challenge of, to steel, 5/28, p.34.
Corrugated sheet roof fabricated by, 3/19, p.38.
Display of, by Metalweld Inc., 6/11, p.36.
Effect of, on galvanizing, 3/26, p.25.
Electric arc by direct and alternating current compared, 4/2, p.36.
Forged crankshafts lengthened by, 3/26, p.30.
Fractionating tower of stainless steel fabricated by, 4/23, p.31.
Gantry crane fabricated by, 5/7, p.27.
Gassing of, rods reduced, 6/18, p.40.
High tensile strength electrode for, 5/28, p.49.
Large bending roll fracture repaired by thermit, 5/7, p.36.
Long pipe line fabricated by, 4/16, p.39.
Machine for, reinforcing wire mats described, 4/9, p.30.
New process for, steel pipe, 4/9, p.38.
Portable electric units for stress relieving welds, 5/14, p.38.
Relation of, to steel castings, 4/30, p.30.
Review of progress in, for 1933, 1/1, p.124.
Saving of weight in, vessel, 4/16, p.40.
Special factors in, before enameling, 4/9, p.31.
Stainless steel drums flash welded, 3/26, p.36.
Tanks bolted before, 4/9, p.28.
Thermit, makes quick repair, 3/26, p.30.
Use of, in building steel mill equipment is described, 1/15, p.24.
Use of, in fabricating swimming pool canopy, 6/4, p.35.
Use of, in railroad maintenance, 2/19, p.28.

Welding Glass Tester:
Description of, 2/12, p.40.

Welding Press:
Two-head, double-stroke, described, 5/7, p.58.

Wellman Engineering Co.:
Car thawing equipment designed by, 5/28, p.54.

Wells Mfg. Corp.:
Metal-cutting band saw designed by, 4/23, p.46.

Westinghouse Electric & Mfg. Co.:
Annual stockholders' meeting of, 4/16, p.11.
Arc arrester designed by, 2/12, p.38.
Direct-current welder designed by, 4/23, p.47.
Electric malleablizing furnace reduces time, 6/4, p.44.
Electronic timer designed by, 3/19, p.54.

Westinghouse Electric & Mfg. Co., (continued)
Financial report of, for first quarter, 4/30, p.16.
Light-sensitive device designed by, 4/9, p.51.
Light source designed by, 3/12, p.46.
Selection of right steels for heat treated gears, 6/11, p.48.
System of tool control and distribution of, 5/14, p.25.
Unusually large surface condenser built by, 3/19, p.35.
Welding timer designed by, 3/26, p.54.

Wetter Numbering Machine Co.:
Device for stamping figures on metal designed by, 1/29, p.38.

Wheels:
Traction, described, 6/25, p.47.

Wheel Dressers:
Grinding, holders, described, 2/5, p.48.

Wheelbarrow:
Construction of, from scrap, 4/2, p.32.

Wheeling Corrugating Co.:
Shop-fabricated steel house designed by, 4/23, p.28.

Wheeling Steel Corp.:
Continuous strip mill contract let, 1/8, p.11; 2/26, p.10.
Financial report of, for first quarter, 4/30, p.11.
Machine for welding reinforcing wire mats used by, 4/9, p.30.

Whitcomb Locomotive Co.:
Diesel locomotive designed by, 3/5, p.44.

Wholesale Prices:
See Prices.

Wickes Bros.:
Semiautomatic lathe designed by, 6/25, p.50.

Wickwire Spencer Steel Co.:
Reorganization under revised bankruptcy act undertaken by, 6/25, p.12.

Wil-X Mfg. Corp.:
Fire extinguisher designed by, 6/25, p.47.

Williams, White & Co.:
Rotary shear designed by, 2/5, p.48.
Tube bending machines designed by, 5/14, p.34.

Williamsport Wire Rope Co.:
Merger with Bethlehem Steel Co. planned, 6/11, p.19.

Windows of Washington:
1/8, p.14; 1/15, p.15; 1/22, p.14; 1/29, p.14; 2/5, p.17; 2/12, p.14; 1/19, p.15; 2/26, p.13; 3/5, p.12; 3/12, p.17; 3/19, p.15; 3/26, p.16; 4/2, p.15; 4/9, p.15; 4/16, p.14; 4/23, p.14; 4/30, p.15; 5/7, p.16; 5/14, p.15; 5/21, p.15; 5/28, p.17; 6/4, p.17; 6/11, p.22; 6/18, p.21; 6/25, p.13.

Windowless Store:
Steel used largely in construction of, 6/4, p.13.

Winter Bros. Co.:
High-speed taps designed by, 1/29, p.39.

Wire:
Progress in manufacture and use of, 3/12, p.25; Part II, 3/19, p.48; Part III, 3/26, p.45; Part IV, 4/2, p.44.

Wire Rods:
Prices of, 1912-1933, by months, 1/1, p.145.

Wire Straightener:
Description of, 1/15, p.30.

Wood Steel Co., Alan:
Financial report of, for first quarter, 4/30, p.16.

Worthington Pump & Machinery Corp.:
Diesel, gas engine designed by, 2/19, p.39.

Y

Young, Arthur H.:
Biographical sketch, 4/2, p.19.

Youngstown Pressed Steel Co.:
Manufacture of enameled steel tubs for washing machines by, 1/22, p.23.

Youngstown Sheet & Tube Co.:
Electric pipe weld mill to be added by, 1/8, p.11.
Employe representation plan of, successful for 15 years, 3/19, p.13.
Expansion of mill facilities by, 2/26, p.10.
Financial report of, for 1933, 2/26, p.12; for first quarter, 1934, 4/30, p.11.
Progress in manufacture and use of wire and products, 3/12, p.25; 3/19, p.48; Part III, 3/26, p.45; Part IV, 4/2, p.45.
Safety record made by, 6/25, p.12.
Spike mill to be installed at Struthers, O., mill, 1/15, p.13; 5/14, p.10.
Steckel 42-inch hot mill authorized by, 2/19, p.11.
Wide continuous hot strip mill ordered by, 6/18, p.17.

Z

Zephyr:
Streamlined stainless steel train of Burlington, 4/23, p.10; 5/7, p.13, 30.
